

**Appendix 3B: Questionnaire for patients 151-300 recruited on shortcut SOP arm [one finger stick performed for all tests requested]**

**PATIENT INFORMATION**

Patient number: \_\_\_\_\_

Age: \_\_\_\_\_

Sex:  M  F

**PATIENT PARTICIPATION**

1. Did the patient consent to participate in the study:  Y  N

2. For both the patients that consented into the study AND those that did not consent, please tick which tests were requested by the doctor for the patient:

- CD4
- Hb
- ALT
- Creatinine

3. For patients who consent into the study please continue to ask the patient the questions on page 2 section 3 below **after taking their blood** for POC testing

3.1. How did it feel after having your finger stick?

- It was fine
- It hurt
- I don't know

3.2. Was finger stick worse than having your blood taken from your arm?

- Yes
- No
- It felt the same
- I don't know

3.3. Please rate the level of pain you experienced for each of the finger sticks, on a **scale of 1 to 4**

(where 1 = no pain; 2 = minimal pain; 3 = mild pain; 4 = severe pain)

CD4        scale\_\_\_\_\_

Hb         scale\_\_\_\_\_

ALT        scale\_\_\_\_\_

Creatinine scale\_\_\_\_\_

3.4. Which is most correct to you?

- I prefer x1 finger stick over x1 needle draw
- I prefer x2 finger sticks over x1 needle draw

4. Was more than one finger stick needed to perform the POC tests requested?

Y	N
