

**ELECTRIC BUS TECHNOLOGY
HOW WILL ELECTRIC BUS TECHNOLOGY CHANGE THE WAY IN WHICH
PUBLIC TRANSPORT NETWORKS ARE OPERATED, MANAGED AND
SUBSIDISED? OR IS THIS JUST A FAR-OFF DREAM?**

W JORDAAN

Grid Cars

ABSTRACT

The Electric evolution is moving faster than anyone anticipated. This will change all aspects of transport and in particular public transport. This talk will cover some of the topics core to this evolution, including charging technology, grid impact, renewable energy, efficiencies, passenger cost and the basic technology in the vehicles.
