

	PAGE
RIEMERSCHMID, G. ...	
The influence of solar radiation on the course of blue-tongue	29
The absorptivity for solar radiation of different coloured hairy coats of cattle	223
THEILER, G.	
Ticks in the South African Zoological Survey Collection III. The ornate aponommas	165
Ticks in the South African Zoological Survey Collection IV. The inornate aponommas	179
Ticks in the South African Zoological Survey Collection V. Three African haemaphysalids parasitic on domestic stock	191
THOMAS, A. D.	
Rinderpest in game. A description of an outbreak and an attempt at limiting its spread by means of a bush fence	7
VAN DER WALT, S. J.	
Recent investigations into the toxicity of plants, etc., in the Union of South Africa	75

SUBJECT INDEX.

Volume 20, Nos. 1 and 2.

Absorptivity.	PAGE
The absorptivity for solar radiation of different coloured hairy coats of cattle	223
Acacia giraffae.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213
Acute bloat.	
Studies on the alimentary tract of merino sheep in South Africa XIII. The rôle of prussic acid in the aetiology of acute bloat	209
Alimentary tract.	
Studies on the alimentary tract of merino sheep in South Africa XIII. The rôle of prussic acid in the aetiology of acute bloat	209
Aponommas.	
Ticks in the South African Zoological Survey Collection:—	
Part III.—The ornate aponommas	165
Part IV.—The inornate aponommas	179
Biological value.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213
Bluetongue.	
The influence of solar radiation on the course of bluetongue	29
Bush fence.	
Rinderpest in game. A description of an outbreak and an attempt at limiting its spread by means of a bush fence	7

	PAGE
Camelthorn pods.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213
Cattle.	
The immunization of cattle against heartwater and the control of the tick-borne diseases, redwater, gallsickness and heartwater	137
The absorptivity for solar radiation of different coloured hairy coats of cattle	223
Contagious tumour.	
The cytology of the contagious (venereal) tumour of the dog	97
Crotalaria globifera.	
Dicrotaline. The toxic alkaloid from <i>Crotalaria dura</i> (Wood and Evans) and <i>Crotalaria globifera</i> (E. May)	61
Crotalaria dura.	
Dicrotaline. The toxic alkaloid from <i>Crotalaria dura</i> (Wood and Evans) and <i>Crotalaria globifera</i> (E. May)	61
Cytology.	
The cytology of the contagious (venereal) tumour of the dog	97
Dichapetalum cymosum.	
Monofluoroacetic acid, the toxic principle of "gifblaar", <i>Dichapetalum cymosum</i> (Hook) Engl.	67
Dicrotaline.	
Dicrotaline. The toxic alkaloid from <i>Crotalaria dura</i> (Wood and Evans) and <i>Crotalaria globifera</i> (E. May)	61
Digestible nutrients.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
Dog.	
The cytology of the contagious (venereal) tumour of the dog	97
Electrophoresis apparatus.	
An electrophoresis apparatus for the rapid routine analysis of sera and other protein solutions	159
Erysipelas.	
A case of swine erysipelas in the Union of South Africa	57
Game.	
Rinderpest in game. A description of an outbreak and an attempt at limiting its spread by means of a bush fence	7
Gifblaar.	
Monofluoroacetic acid, the toxic principle of "gifblaar", <i>Dichapetalum cymosum</i> (Hook) Engl.	67
Grape seeds.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213

	PAGE
Haemaphysalids.	
Ticks in the South African Zoological Survey Collection V. Three African haemaphysalids parasitic on domestic stock	191
Heartwater.	
The susceptibility of the Springbuck (<i>Antidorcas marsupialis</i>) to heartwater	25
The immunization of cattle against heartwater and the control of the tick-borne diseases, redwater, gallsickness and heartwater	137
Immunization.	
The immunization of cattle against heartwater and the control of the tickborne diseases, redwater, gallsickness and heartwater	137
Inornate aponommas.	
Ticks in the South African Zoological Survey Collection IV. The inornate aponommas	179
Lucerne hay.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
Merino.	
Studies on the alimentary tract of merino sheep in South Africa XIII. The rôle of prussic acid in the aetiology of acute bloat	209
Metabolizable energy.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
Monofluoroacetic acid.	
Monofluoroacetic acid, the toxic principle of "gifblaar", <i>Dichapetalum cymosum</i> (Hook) Engl.	67
Nutritive value.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213
Ornate aponommas.	
Ticks in the South African Zoological Survey Collection III. The ornate aponommas	85
Planes of intake.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
Plants.	
Recent investigations into the toxicity of plants, etc., in the Union of South Africa	75.
Protein.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213

	PAGE
Protein solutions.	
An electrophoresis apparatus for the rapid routine analysis of sera and other protein solutions	159
Prussic acid.	
Studies of the alimentary tract of merino sheep in South Africa XIII. The rôle of prussic acid in the aetiology of acute bloat	209
Redwater.	
The immunization of cattle against heartwater and the control of the tick-borne diseases, redwater, gallsickness and heartwater	137
Rinderpest.	
Rinderpest in game. A description of an outbreak and an attempt at limiting its spread by means of a bush fence	7
The manufacture of anti-rinderpest spleen vaccine under field conditions in Tanganyika Territory	123
Sera.	
An electrophoresis apparatus for the rapid routine analysis of sera and other protein solutions	159
Sheep.	
The nutritive value of South African feeding stuffs II. Digestible nutrients and metabolizable energy of lucerne hay at different planes of intake for sheep	85
Studies on the alimentary tract of merino sheep in South Africa, XIII. The rôle of prussic acid in the aetiology of acute bloat	209
Solar radiation.	
The influence of solar radiation on the course of bluetongue	29
The absorptivity of solar radiation of different coloured hairy coats of cattle	223
Spleen vaccine.	
The manufacture of anti-rinderpest spleen vaccine under field conditions in Tanganyika Territory	123
Springbuck.	
The susceptibility of the Springbuck (<i>Antidorcas marsupialis</i>) to heartwater	25
Swine erysipelas.	
A case of swine erysipelas in the Union of South Africa	57
Tickborne diseases.	
The immunization of cattle against heartwater and the control of the tickborne diseases, redwater, gallsickness and heartwater	137
Ticks.	
Ticks in the South African Zoological Survey Collection:—	
Part III.—The ornate aponommas	165
Part IV.—The inornate aponommas	179
Part V.—Three African haemaphysalids parasitic on domestic stock	191
Toxic alkaloid.	
Dicrotaline. The toxic alkaloid from <i>Crotalaria dura</i> (Wood and Evans) and <i>Crotalaria globifera</i> (E. May)	61

Toxicity.	PAGE
Recent investigations into the toxicity of plants, etc., in the Union of South Africa	75
 Toxic principle.	
Monofluoroacetic acid, the toxic principle of "gifblaar". <i>Dichapetalum cymosum</i> (Hook) Engl.	67
 Tumour.	
The cytology of the contagious (venereal) tumour of the dog	97
 Vaccine.	
The manufacture of anti-rinderpest spleen vaccine under field conditions in Tanganyika Territory	123
 Venereal tumour.	
The cytology of the contagious (venereal) tumour of the dog	97
 Yellow maize.	
The nutritive value of mixed proteins. The biological value of the proteins of a mixture of yellow maize seed and grape seeds, and a mixture of yellow maize seed and camelthorn pods (<i>Acacia giraffae</i>)	213
