Dear Roger,

I would welcome the drawings being made available electronically to the research and academic community as I have always believed that they should be more widely accessible.

Best regards,

Mira Fassler Kamstra

Dear Mira

As discussed telephonically I wish to confirm that the Pearse drawings were loaned to us for digitising in order that they be available for researchers, and that you, as rightful owner of the collection of the originals for Pearse's C18 Furniture have no objection to them being made available electronically to the academic and research community.

Best wishes

Regards

Roger Fisher
