
SUBJECT INDEX, Vol. 8, Nos. 1 and 2.

Anatomy.

- Anatomical Study No. 62. On the effect of debudding on skull conformation VIII 487

Bacillus anthracis.

- Variation in *Bacillus anthracis* VIII 271

Biopsy.

- Bone biopsy as an aid to the study and diagnosis of deficiency disease VIII 431

Blood Filtrates.

- Chemical blood studies VII. A serial study over a 12 months period of some organic and inorganic constituents in "laked" and "unlaked" blood filtrates of healthy bovines between 15 and 27 months old VIII 443

Blue Tongue.

- Observations on blue tongue in cattle and sheep VIII 129

Bovine.

- Bovine theileriasis in South Africa with special reference to *Theileria mutans* VIII 9

- Studies in mineral metabolism XXXVI. Fluorine metabolism in rats and bovines VIII 359

- Chemical blood studies VII. A serial study over a 12 months period of some organic and inorganic constituents in "laked" and "unlaked" blood filtrates of healthy bovines between 15 and 27 months old VIII 443

Calcium.

- Studies in mineral metabolism XXXVII. The influence of variations in the dietary phosphorus and in the Ca:P ratio on the production of rickets in cattle VIII 375

Cattle.

- Observations on blue tongue in cattle and sheep VIII 129

- Studies in mineral metabolism XXXVII. The influence of variations in the dietary phosphorus and in the Ca:P ratio on the production of rickets in cattle VIII 375

	VOL.	PAGE
Chemical Blood Studies.		
No. VII. A serial study over a 12 months period of some organic and inorganic constituents in "laked" and "unlaked" blood filtrates of healthy bovines between 15 and 27 months old	VIII	443
Debudding.		
Anatomical Study No. 62. On the effect of debudding on skull conformation	VIII	487
Deficiency Disease.		
Bone biopsy as an aid to the study and diagnosis of deficiency disease	VIII	431
Fluorine.		
Studies in mineral metabolism XXXVI. Fluorine metabolism in rats and bovines	VIII	359
Food Poisoning.		
<i>Salmonella bovis-morbificans</i> (Basenau) from an outbreak of food-poisoning in the Cape Province	VIII	351
Gaigeria pachyscelis.		
Observations on the morphology and life-history of <i>Gaigeria pachyscelis</i> , Raill. and Henry, 1910. A hookworm parasite of sheep and goats	VIII	183
Goat.		
Observations on the morphology and life-history of <i>Gaigeria pachyscelis</i> , Raill. and Henry, 1910. A hookworm parasite of sheep and goats	VIII	183
Gravid Uterus.		
Studies in sex physiology No. 18. On the growth of the gravid uterus in the merino	VIII	417
Hookworm.		
Observations on the morphology and life-history of <i>Gaigeria pachyscelis</i> , Raill. and Henry, 1910. A hookworm parasite of sheep and goats	VIII	183
Horsesickness.		
Investigations into the transmission of horsesickness at Onderstepoort during the season 1932-33	VIII	213
"Laked" Blood Filtrates.		
Chemical blood studies VII. A serial study over a 12 months period of some organic and inorganic constituents in "laked" and "unlaked" blood filtrates of healthy bovines between 15 and 27 months old	VIII	443
Merino.		
Studies in sex physiology No. 18. On the growth of the gravid uterus in the merino	VIII	417
Mineral Metabolism.		
Study No. XXXVI. Fluorine metabolism in rats and bovines	VIII	359
Study No. XXXVII. The influence of variations in the dietary phosphorus and in the Ca:P ratio on the production of rickets in cattle	VIII	375

	VOL.	PAGE
Phosphorus.		
Studies in mineral metabolism XXXVII. The influence of variations in the dietary phosphorus and in the Ca:P ratio on the production of rickets in cattle	VIII	375
Rickets.		
Studies in mineral metabolism XXXVII. The influence of variations in the dietary phosphorus and in the Ca:P ratio on the production of rickets in cattle	VIII	375
Salmonella bovis-morbificans.		
<i>Salmonella bovis-morbificans</i> (Basenau) from an outbreak of food-poisoning in the Cape Province	VIII	351
Sex Physiology.		
Studies in sex physiology No. 18. On the growth of the gravid uterus in the merino	VIII	417
Sheep.		
Observations on blue tongue in cattle and sheep	VIII	129
Observations on the morphology and life-history of <i>Gaigeria pachyscelis</i> , Raill. and Henry, 1910. A hookworm parasite of sheep and goats	VIII	183
Studies in sex physiology No. 18. On the growth of the gravid uterus in the merino	VIII	417
Skull Conformation.		
Anatomical Study No. 62. On the effect of debudding on skull conformation	VIII	487
Theileria mutans.		
Bovine theileriasis in South Africa with special reference to <i>Theileria mutans</i>	VIII	9
Theileriasis.		
Bovine theileriasis in South Africa with special reference to <i>Theileria mutans</i>	VIII	9
"Unlaked" Blood Filtrates.		
Chemical blood studies VII. A serial study over a 12 month period of some organic and inorganic constituents in "laked" and "unlaked" blood filtrates of healthy bovines between 15 and 27 months old	VIII	443
