There has been many obstacles cast on our efforts. But the latest has been the pamphlets which have been distributed around Soweto. Which are purported

I want to stand and refute here very categorically that we know what we are up to, we know what our enemy is, we are in no way going to fight for small things, trivial things, we are fighting for the recompense of our country, and on that we are all united. In this few words, master of ceremonies and my countrymen, consider this pamphlet a work of our enemy and let us celebrate that our coming together is a frustration of this job".

FRANK CHIKANE:

"... for liberation (Video interruption) this occasion. Before we actually pray I ^{wish} ~~want~~ to thank once more everybody who has contributed directly or indirectly to the unity amongst us which has been spoken about, and that we as a people will start working together as a United people. I wish to call upon this gathering to commence this unity with the blood of our fellow beloved children who died at June 16, so that whenever somebody raises differences for the sake and the sole reason of dividing us, we - remember the blood of those of our children who died as a covenant.

You can be rest assured that our common enemy controlled by Pretoria is, not happy at all with this achievement of this week of unity during our negotiations. For our unity is their downfall and our division is actually their victory. The pamphlets which have been distributed in the name of AZAPO has been accordingly denounced this morning and the system is bound to be disappointed and frustrated and Pretoria in particular Protea which is around the corner as an agent of Pretoria. Let us finish them up, by concluding this status with all the dignity and spirit for unity in action and reconciliation. I now propose that we all stand in prayer and remember the victims of June 16 and those who died, the hundreds of our children shall we be standing and remember those in silence (video interruption)

(Most of audience hold up right hand with fist clenched)

All the hundreds of children who follow him, into the hearts of our Mother Africa in a mercenary and bloody act of the South African government. We express our condolence to their families. We remember those (video interruption) We remember those who have been forced in actual fact to leave the country (video interruption) away from their families and their beloved country, we remember well those who decided to join the guerrilla warfare not out of their

own choice but out of pressure and compulsion to die for what they believe to be a just cause.

We extend our condolence to the families of those who have died in combat, or those who have been hanged or are serving long and life sentence or life imprisonment. All, above all I want us to remember people we never remember during this occasion, that there are mothers in our communities who have actually died of heart attack or have been crippled because of the death of their children. And it was only this week when it filtered through, two families where the parents have died because of the heartache at the death of their children. And I wish that we also remember them ^{and} ~~in~~ that we know they have made a contribution to the struggle for liberation.

Lets observe a moment of silence

(Audience sit down) (video interruption)

..... the coldest nights of the year, if God is really with us, let him go to the prisons and the police stations where our people are tortured and the fascist regime tortures them even to death those who are peace-loving in South Africa are rotting in jail and serving life sentences and if God is with us we need to see him in those cells with us. God came at the right time and that was the message that I want to communicate to you today. That God came at the right time to the children of Israel to answer this questions when he said" And now behold the cry of the people of Israel has come to Me and I have seen the oppression with which the Egyptians have oppressed them. Come I say and I will send you to Pharoah, and I mean you in this hall, I will send you to Pharoah, that you may bring forth My people out of Egypt, and you, listen to what he says, and you and the elders of Israel shall go to the king of Egypt and say to him, the Lord the God of Israel, the God of the Hebrews has ^tmed us and now we pray you let us

go three days journey into the wilderness that we may sacrifice to God, now this is important, I know, it is God who says this, I know that the king of Egypt will not let you go, I know this, I am saying go to the king of Egypt, (interruption) I say to you - Go to Botha, and tell him that these children of Israel have to be saved and in this particular instance, it is the oppressed people in the country we are saying to Botha let the children of God be liberated. Let them be free

(Audience : Amandla Awethu)

but we call that he be free, we know that he is deaf, he is not going to hear us, we know that he is not going to hear us, we know that he is not prepared to hear us, and listen to what God says, he says I know that, they, he won't unless he is compelled by a mighty hand if he is not compelled he is not going to move and I want us to understand that the reactionaries of this world, the oppressors - of this world are not going to let go without being put under pressure. So I will stretch, says God, out My hand and smite Egypt with all the wonders which I'll do in it After that he will let you go (ululating of women) let you go.

And I want to say to you this afternoon that God wants all of you here to go, and if he says, you must go, you must go, irrespective of the consequences, don't think you that you have no power, don't think that you have no guns, don't think that you have nothing that you can rely on

(Audience : Amandla Awethu)

You have God You have God, a commitment, that is the cause for which you are fighting and I want to challenge you to stand up, don't wait for another person, you must go and do what God wants you to do, He is on the side of those who are oppressed and we have to go. I want to conclude by saying that God has seen our suffering for many years. And he has seen now the brutality of the system and violence. And God has gone into action to free his people and I want you to be careful just

to listen carefully when you read the Bible. It says, let my people go and worship God in the wilderness. It is a matter of worship. It is a matter of faith. But the matter of faith produces liberation. There is conspiracy within the matter of faith. If you go, you live forever, because you are liberated now. Once they leave you to go and pray you go and pray forever be free and if we actually know how conspiratory the Bible is, we will know that we can get our liberation, tomorrow. Thank you".

June 15th 1976 I want to stress that we are not here to mourn but to intensify - our struggle and double our speed against the racist education of this country.

In 1976 when a young innocent Hector PETERSON was brutally murdered by the most reactionary South African Police, we gave one cheek. Again in 1984 when Emma SITHEBE was killed by a police van during the class boycott, we also gave another cheek, thats how they (inaudible) and christianity we are - What should we do because we gave the two cheeks, we have: should we mourn or entertain this unbecoming state of affairs. Comrades, 1984 our academic year is characterised by general unrest in most black educational institutions the Saulsville/Atteridgeville schools (inaudible) and other educational institutions bears testimony to it. It is significant to know that the problem is deeply rooted in the education system which is inextricably bound to social, economical and political conditions in this country. Let us (inaudible)

SPEAKER IN SOTHO AND ENGLISH: (inaudible).

SIPHO RADEBE.

BANTU MALE DAN MONTSITSI WEARING GLASSES:

"Now, what they did was to decide that now on the 14th and the 15th we shall get to our own respective schools and inform our own fellow students to prepare placards so that on June the 16th we must actually proceed with our ^{peaceful} peoples demonstration. The message was well received comrades and we decided that now on the 16th we are actually going to have a march. Now I remember in fact in my own school ^{SEKANO NTORNE} (inaudible) what we did was to address our own students on the ¹⁶ 15th June?

after we have addressed our students, our students ^{were quiet ready} (inaudible) placards, what we did was to move over from the

one school to the other collecting all students who had expecting us in order to demonstrate peacefully against Afrikaans as a medium of instruction. And at the same time, the very system of Bantu Education. Now what we did, in fact was to move over to Senoane Secondary School. Now the whole process of the demonstration was quite peaceful disciplined and well conducted. What we did before we entered the gates of Senoane Secondary School. What we did was to let the students wait outside the gate and we went inside in order to talk to the Principal (video interruption)
(inaudible)

Now there in Phefeni we actually find that now in our own side, when we were charged with sedition, when we were charged with terrorism, riotous Assembly and Public Violence, there was a sergeant, in fact who gave evidence in our trial, now the name of that sergeant was Sergeant THOTELA (phonetical), I won't forget the name of that sergeant, because what he said on that day during our trial was true, the sergeant said in his evidence-in-chief, when we arrived, the students were happy, the students were singing, the students were chanting slogans, the students were dancing, this was the mood which Sergeant THOTELA (phonetical) observed, this was the mood that prevailed on June the 16th at about 12 o'clock, this was the mood that actually prevailed simply because the students had no violent intentions, they had actually meant to show in a symbolic way how they reject Bantu Education and how they reject Afrikaans as a medium of instruction. What happened and what followed,

The, the Lieutenant in charge actually released a dog, after that dog had bitten one of the students, the students decided that ^{it} ~~he~~ should disappear amongst the students and ^{it} ~~he~~ did disappear indeed

(Audience : Amandla - cut short)

When we were trying to disperse, when we were moving in different directions overcome by the gas, they started shooting, when they started shooting obviously students at that time were quite surprised, we were all shocked we did not believe our eyes, we did not believe this was actually happening, now what we actually saw was that now one of the lady students actually fell down, when we looked at her there was a gaping wound in the chest, there was blood flowing from her dress, there was blood flowing in her mouth and so on. Now, a lot of these atrocities continued when we started dispersing, running in all directions they started shooting, shooting and shooting. What happened was that now some of the students realised that now they cannot be running forever, what they did in fact as we can learn later from the experiences of people like SIMON MOEGOERANE (phonetical) of people like TSOTSOBE (phonetical) and so on, they actually say themselves during their trial, SIMON MOEGOERANE (phonetical) says: 'My experience in 1976 has an effect of re-inforcing the hatred I already have for the government. I thought the war had started and that freedom was here. We decided that it was pointless making placards because one would get shot while doing so, I decided to go out of this country to go and get myself a gun to fight this people'.

This is what SIMON MOEGOERANE (phonetical) said in his trial when he was sentenced to death. Now, Comrades, what we realise here is another statement which was made by this three comrades, while they were actually ^{aled} tried now here they are saying, all three also told the court that the ANC had given them a choice of military training or to further their own education, but what they did was to opt for military training (video interruption).. to undergo military training, these are the words of people who were demonstrating peacefully, these are the words of students who were students to their teachers, these are the words of people who were

loving children to their own parents, but later we were actually led to believe that these people are actually terrorists, these people are actually instigators, these people are actually communists, Comrades (whistle blows).

Comrades, at the same time in order to show in fact how close we were to these people who are allegedly terrorists, I remember an instance in my school. We also use to have a student by the name of NAFTALI MANANA. (phonetical) NANHLALI MANANA (phonetical) was an ordinary student in our school, there was nothing terroristic about him until such time that he went into the street to demonstrate against the enforcement of Afrikaans as a medium of instruction (video interruption)

An agitator ^{an} ~~of~~ instigator and so on. I know that I used to sit with him at Komati (phonetical), where we used to eat ^{QUARTER} (inaudible) at lunchtime, I know that I used to eat fatcakes with him, I know that I used to eat in fact -eh- apples, you know, sweets and Mashangane wors ^{with} MANANA (phonetical) now today we are actually being told that those people are terrorists. I also remember comrades, an instance of a person in fact I was intimated, partially incidentally she happened to be my girlfriend, who was also arrested, what happened (video interruption)

South African economy more skilled labour power is required to mend the highly advanced industry ^{of this country} (inaudible). The white workers are too few to cope with the rapid technological development of the South African economy therefore the only option left for the government is to relax some of the reservation laws in order to co-opt the African workers. It is not true, in fact, to the change of heart or consent with the lot of the African people, it is in fact in perpetuation of the exploitation of our own parents in the factories.

Secondly comrades, the other change which the government is supposed to have initiated was to open doors to private companies to build expensive houses in Soweto and other African townships, we are very much aware that this is meant to bring division among the people. Those who are in the upper class and those who are in the lower class, some of those who are in the new beautiful houses sometimes they think they have made it, they think that they are different from those who live in matchboxes, some of them however, they are quite innocent and they are quite honest, they actually say it quite clearly that they have inherited an economic burden for the rest of their lives.

Now comrades, what we are saying is these manoeuvres won't fool us, because what we want in fact is housing and security for the rest of the South African people. Now, we know that now in fact, when the Union of South Africa was declared in 1910, the majority of the South African people were not consulted when the Republic of South Africa Constitution was adopted in 1961, again no consultation took place, now we have a new tri-cameral parliament, the Presidents Council and again the majority was not consulted. Through the Black local authorities act, the ^{URBAN} other blacks are expected to be content with the new co-, with the new community-council parliament, whose final course lie in the hands of the Minister of Co-operation and Development, Dr Piet Koornhof.

If the blacks reject the present community council, he says they are free to exercise their political, their economic and other rights in their respective homelands, this is what the Minister says (video interruption) (inaudible) .. congress, as the anti-, as the Anti-SAIC CONGRESS, in fact" (video interruption)

(Shouting) (inaudible)

Singing (inaudible)
