Dear Sir Herbert,

Many thanks for your letter of September 21st and the enclosed sketches which are very much interesting for my collection.

I am sorry that I did not have them earlier as I should have liked to include one or two of them in the book which is about to be published.

I hope to get down the Cape next year to complete my survey of the Early 19th Century works and the same time do some more work in the Nelspruit district where I shall then have an opportunity to find out which of the old buildings you have sketches are still standing.

Due to the sketch by J. C. F. Sturm which is of particular interest as it shows the Castle has been destroyed...
