- Are there more...?
Current Service Structure
Potential Conflicts

IT-Infrastructure at the University of Applied Sciences Offenburg - Potential Conflicts

EDUVATE 2008
Potential Conflicts - Understanding importance

- Different view, same services
  - Not possible to realise → wrong usage
- Same view, different services
  - Not possible to realise → wrong usage
- Different password database
  - Inconsistent passwords!
Conclusion

- Amount of services & information increases
  - Easy to use, intuitive, same look & feel
  - Hide technical aspects
  - (Intelligent) filter for information & services for specific target group

Effective usage and work for:
Students, professors & employees
