Copy editing of Dissertation – Cherie Je'Taime Ascencao

This letter serves as proof that Cherie Je'Taime Ascencao's Master's level dissertation titled "Exploring the Implementation of Post-Operative Interventions to Prevent a Paralytic Ileus in Abdominal Surgery Patients" was edited by me in November 2020.

This dissertation has been edited on Microsoft Word, using the track changes function. I have not altered the content. This dissertation has been edited for language and formatting consistency.

Please do not hesitate to contact me for more information.

Yours faithfully

Elizabeth Schult
