Further to the above, when author(s) choose to submit a long paper for review the following applies:

REVIEWING PROCESS FOR SAARMSTE LONG PAPERS 2021

All 6 000 – word long papers were reviewed by at least two external reviewers.

Reviewers were selected from the list of reviewers for the African Journal for Research in Mathematics, Science and Technology Education (AJRMSTE) published by Taylor & Francis. Other recognized researchers in the field of Mathematics, Science and Technology Education were also approached to be reviewers.

The reviewers' suggestions were considered by the members of the Review Panel. Where there was consensus, the reviewers' recommendations were accepted by the Review Panel. Where consensus was not reached, the Review Panel appointed at least one other reviewer and all reviews were taken into consideration before a decision was made.

In cases where papers were accepted with conditions, authors were guided to make changes in order to have their papers accepted, or provide a compelling argument for no further revision. Long papers that were re-worked and re-submitted by authors underwent a final review and editing process before being published in the accredited Book of Proceedings. (Page iv of the Proceedings)

Guide line (Page vi of the Proceedings) stipulate:

GUIDELINES FOR PAPER SUBMISSION AND PRESENTATION - 2021

Long paper: Maximum of 6000 words, including references, for a 30-minute pre-recorded, narrated presentation. Long papers are equivalent to journal publications utilising the same criteria as AJRMSTE articles and are reviewed accordingly. In accepting a long paper for presentation at the SAARMSTE conference, the Review Panel presumes:

- 1) The paper is original and has not been published elsewhere;
- 2) Permission will be granted by the author for the accepted long paper to be published in the accredited *Book of Proceedings*;
- 3) At least one of the authors will register and attend the conference to present the paper;
- 4) First authors will only present one long paper at each conference.

Long papers are fully peer reviewed and thus attract Department of Higher Education and Training subsidy.

The full Book of Proceedings can be found on the SAARMSTE Website and viewed by current members only. This latter, purely as a means of protecting the author(s) from plagiarism. All 6 National Libraries have hard copies of the Book of Proceedings as required by the Legal Deposit Act no. 54 of 1997

Regrettably we have never been asked for a 'postprint' document. Our main concern is that the accepted conference papers do not contain any plagiarism and that they follow the procedure and guidelines set out in our SAARMSTE 1st Announcement and Call for Paper. See attached relevant Call for the 2021 Conference. Page 3 quoted below, (which indicates through its objectives, that the Association promotes ongoing research within MSTE), and page 4 regarding Long Papers:

OBJECTIVES OF THE SAARMSTE CONFERENCE

Three objectives of SAARMSTE, according to its constitution, are:

- To promote the advancement of Mathematics, Science and Technology Education (MSTE) research in Southern Africa
- To foster a sense of community among researchers in MSTE
- To promote research to improve and develop MSTE programmes in response to current and future needs

The Annual SAARMSTE Conference is an important vehicle to address these objectives.

Kind regards
