My Record Feeds in Web Browser

The screenshot shows a web browser window with the address bar displaying "Your Library Record News". The browser's Favorites Center is open, showing a list of feeds. The feed "Your Library Record News" is highlighted with a green oval. The main content area of the browser displays a yellow confirmation message: "You've successfully subscribed to this feed!". Below this, the title "Your Library Record News" is shown with an "RSS 2.0" icon. Underneath, there is a section titled "Materials overdue" with a date and time: "17 October 2008, 11:00:35 AM" and a right-pointing arrow. A "Show all items" link is located at the bottom of the feed content.

Reviews [X]

Booklist Reviews 2006 July #1

For those who want much more than the view of Mandela as a global public hero, this biography combines a chronological account of his life with dense critical analysis of his political and personal roles. Lodge is a well-known scholar of South African history, and he draws on a wealth of testimonies, letters, and interviews from a wide range of sources, as well as the acclaimed authorized biographies, including Antony Sampson's *Mandela* (1999). Of course Lodge also draws extensively on Mandela's best-selling memoir, *Long Walk to Freedom* (1994), even while pointing out that "autobiography is not always good history." Then there are the recent news events, including Mandela's commitment to combating the AIDS pandemic and how that effort became tragically personal when his son died of the illness. One question raised is how much the messianic image was carefully crafted. The analysis in no way belittles Mandela; rather, it humanizes the man who, after 27 years in prison, led his country in a nonviolent transition to democracy. ((Reviewed July 2006))

Biography [X]

Oxford University Press

Tom Lodge is Professor of Peace and Conflict Studies at Limerick University in Ireland. He has worked in the United States as Director of the Africa Program at the Social Science Research Council. He is the author of five other books on South African politics, including an authoritative history of the post-Second World War history of black resistance.

Power & Performance

Simplified searching does not come at the cost of restricted search options. **Encore** features powerful, yet flexible, search options which allow you to refine and narrow your search with a simple click of the mouse. No longer are you required to navigate the maze of screens to limit, sort, and modify your search.

Interact & Discover

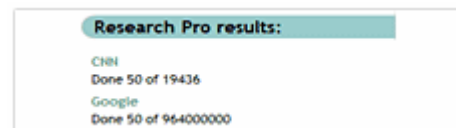

Popular choices are automatically and prominently presented on screen based on your search results.

You can also quickly discover and narrow your topic of interest using tags, generated from your search results, displayed in a tag cloud.

One Step Ahead

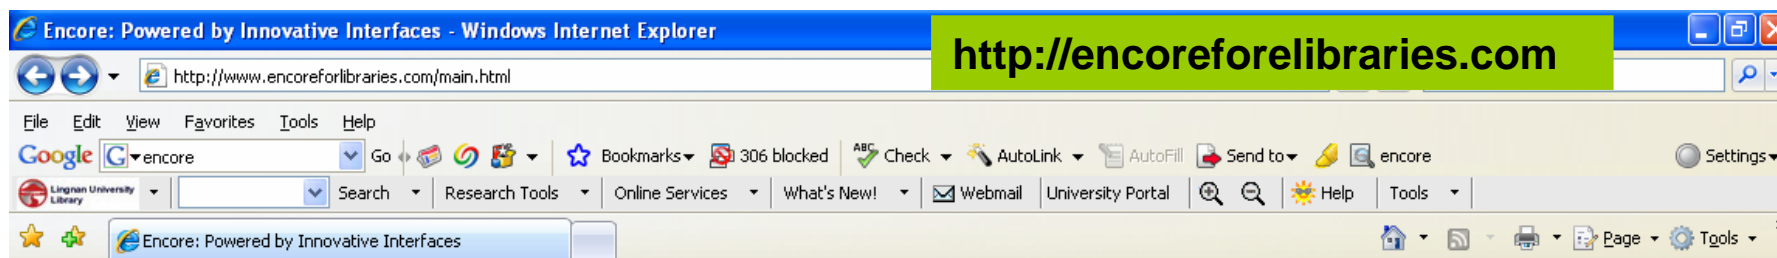

Encore - conclusion

Will Encore replace the catalog?

No. “Continue to use the catalogue when you want to do a non-keyword search, e.g. Author, Title, or ISBN, or if you need to apply limits to your search”.

Encore – More info

RightResult™ Faceted search Federated search results Tag cloud

For the ultimate in discovery that's easy to implement and use, Encore is the answer. Encore elegantly presents all manner of discovery tools, such as faceted search results, Tag Cloud, *Did You Mean...?*, Popular Choices and Recently Added suggestions, and RightResult™ relevance ranking.

No matter what ILS your library uses, Encore provides a reliable solution for taking discovery to a whole new level. Encore even makes use of user contributions as a tool for discovery by blending in cool community participation features, such as tagging.

In short, Encore creates an entirely new user experience of your library. It makes finding as easy as searching, leverages Web 2.0 technologies and practices, and delivers a complete discovery-to-delivery solution that is appealing, sophisticated, and just plain fun!

Encore also integrates INN-Reach search results, harvested digital collections, Electronic Resource Management resource records, Program Registration, Pathfinder Pro contextual links, as well as Research Pro and other federated-search tools. Your library can also bring enriched content and harvested data into the Encore environment.
