Dear Mr Martelli

I write to you as one of the authors of paper 5408 included in the proceedings of the 11th Asia-Pacific Regional Conference of the ISTVS.

Funding for this project was received from the European Union Horizon 2020 Program. The European Commission has requested that we place the publication on a public repository.

Based on the ISTVS copyright, authors are allowed to post the ISTVS-copyrighted article on their own personal servers or the servers of their institution.

We would like to request permission to post a final version of the paper (i.e. the non ISTVS-copyrighted article) on the University of Pretoria's UPspace repository (<https://repository.up.ac.za/>), which is a public repository. I have attached the final version of the paper that would be posted for your information.

Thank you for considering this request.  
Please feel free to contact me if you require any further information.

Regards,  
Cor-Jacques
