re thinking green

an exploration of sustainable architecture and environmental philosophy

“After all, nature is a symbol of freedom. Sometimes nature actually gives rise to and maintains the idea of freedom. If we base our technical plans on nature we have a chance to ensure that the course of development is once again in a direction in which our everyday work and all its form will increase freedom rather than decrease it.”

Alvar Aalto
(Weston 1995, p98)

List of Figures

Chapter 2 – Re thinking green

2.1 Concept Sketch for the Jubilee Campus. (Buchanan 2005, p78)

Chapter 3 – Context Study

3.1 View of proposed site from Steenhoven Spruit facing West. (Author)
 3.2 Showing Site in Context of Pretoria. (Group Framework)
 3.3 Mapping of Existing Activities. (Group Framework)
 3.4 Boundaries of Study Area. (Group Framework)
 3.5 Watercolour by S. E. Coates. (Aziz Tayob Architects 2002)
 3.6 Pretoria in 1889. (Aziz Tayob Architects 2002)
 3.7 Marabastad 1905. (Aziz Tayob Architects 2002)
 3.8 Asiatic Bazaar 1954. (Aziz Tayob Architects 2002)
 3.9 Images of Marabastad. (Aziz Tayob Architects 2002)
 3.10 Photo of Activities on site. (Author 2007)
 3.11 Photo of Activities on site. (Author 2007)
 3.12 Context Analysis. (Author 2007)
 3.13 The Steenhoven Spruit. (Author 2007)
 3.14 Bloed Street adjacent to the proposed site. (Author 2007)
 3.15 Boundaries. (Author 2007)
 3.16 Pavement colonnades. (Author 2007)
 3.17 Proposed Micro Framework (Author 2007)
 3.18 Solar Path Diagram (Author 2007)
 3.19 Roof Overhang, window height and positioning for Pretoria (Holm 2001)
 3.20 Solar Access for building spacing in Pretoria (Holm 2001)
 3.21 Solar Study (Author 2007)
 3.22 Blockage Ratios for Different Organizations of buildings and streets (Brown 2001)
 3.23 Predicting Wind Velocity (Brown 2001)
 3.24 Flow Regimes Between Buildings (Brown 2001)
 3.25 Wind Roses for Pretoria (Holm, 2001) (Image Redrawn)
 3.26 Summer Wind Study (Author, 2007)
 3.27 Winter Wind Study (Author, 2007)

3.28 Wind Roses for Pretoria (Holm, 2001) (Image Redrawn)

Chapter 4 – Precedent Studies

4.4 Conceptual Section indicating passive ventilation & natural lighting strategies (Buchanan 2005, p.43)
 4.5 South Elevation depicting the floating glass roof (Richters 2003)
 4.6 Roof detail (Buchanan 2005, p.43)
 4.7 Central Technical Facility (Photo: Martin Hamilton Knight)
 4.8 Conceptual Passive Ventilation Strategy (Buchanan 2005, p.80)
 4.9 Section Through Typical Academic Building (Buchanan 2005, p.80)
 4.10 Learning Resources in Jagged Outline (School of Architecture, Planning and Landscape, University of Newcastle)
 4.11 Academic Building Plan (Buchanan 2005, p.80)
 4.12 Concept Sketch (Bates 2007, p.11)
 4.13 Concept Sketch (Bates 2007, p.11)
 4.14 Water Wall & Solar Shading Devices (Bates 2007, p.10)
 4.15 Night View (Bates 2007, p.2)
 4.16 Water Wall & Shading Devices (Bates 2007, p.10)
 4.17 Conceptual Section (Buchanan 2007, p.52)
 4.18 Conceptual Sketch (Jacks 2007, p.6)
 4.19 Floor Plan (Buchanan 2005, p.51)
 4.20 Sketch Of "Breathing Wall" (Jacks 2007, p.9) edited

Chapter 5 – Design Development Storyboard

5.1 Recommended Urban Pattern in Temperate Climate (Brown, GZ, DeKay, M 2001, p. 102)
 5.2 Typical Section Through Street (Aziz Tayob Architects 2002)
 5.2b Integrated Urban Design Framework (Base Map: (Aziz Tayob Architects 2002))
 5.3 Streetscape Plan (Aziz Tayob Architects 2002)
 5.3b Development Scenario (Aziz Tayob Architects 2002)
 5.4 Movement Study (Author 2007)
 5.5 Activities (Author 2007)

5.6 Informal Traders (Author 2007)
 5.7 Informal Mielle Distribution (Author 2007)
 5.8 Taxi Repairs (Author 2007)
 5.9 Black train-commuting patterns in Pretoria, 1969-87 (Brandt 2002)
 5.10 Existing Marabastad Fabric (Aziz Tayob Architects 2002)
 5.11 Proposed Change in Urban Fabric (Aziz Tayob Architects 2002)
 5.12 Felix in Exile (William Kentridge, 1994)
 5.13 Typical Ndebele House (Nowitz, 2007)
 5.14 Appropriation of Ndebele Planning Concepts (Author 2007)
 5.22 Recycling of Building Materials on Site (Author 2007)
 5.23 Skills Development (Barefoot College, 2007)
 5.24 Skills Development (Barefoot College, 2007)
 5.25 First Solar Powered Village in Afghanistan (Barefoot College, 2007)
 5.26 Conceptual Section indicating Solar Access (Author 2007)
 5.27 Site Orientation and Layout By Climatic Priority (Brown, GZ, DeKay, M 2001, p. 103)
 5.28 Photovoltaic Roof Sheeting (Image courtesy of Stephen Wilkinson, Rheinznink)
 5.29 Photovoltaic Roof Sheeting (Image courtesy of Stephen Wilkinson, Rheinznink)
 5.30 Solar Area Sketch (Author 2007)
 5.31 Wind Roses for Pretoria (Holm 1999, p.70)
 5.32 Summer Wind Movement over Building (Author 2007)
 5.33 Positioning of openings (Brown 2001, p.242)
 5.34 Ventilation in roofing structure (Author 2007)
 5.35 Double Skin Efficiencies by Design Characteristics (Brown 2001, p.227)
 5.36 Sizing Courtyards for Ventilation (Brown, GZ, DeKay, M 2001, p. 209, 127)
 5.37 Factors in Calculating blockage ratio (Brown, GZ, DeKay, M 2001, p. 102)
 5.38 Isolated Roughness Wind Flow Regime (Brown, GZ, DeKay, M 2001, p. 117)

Chapter 7 – Technical Investigation

7.0a Material Selection (Author 2007)
 7.0b Material Selection (Author 2007)
 7.0c Material Selection (Author 2007)

- 7.0d Material Selection (Author 2007)
- 7.1 Diagrammatic Section of Double Skin Wall (Brown, GZ, DeKay, M 2001, p. 102)
- 7.2 Sketch Of “Breathing Wall” (Jacks 2007, p.9)
edited by author
- 7.3 Commerzbank Facade - 3D Detail (Lechner 2001, p.557)
- 7.4 Transpired Wall Components (Brown, GZ, DeKay, M 2001, p. 238)
- 7.5 Transpired Wall Section (Brown, GZ, DeKay, M 2001, p. 238)
- 7.6 An Example of a Transpired Wall (Brown 2001, p.238)
- 7.7 Trombe wall building up heat gain in day (Lechner 2001, p.152)
- 7.8 Trombe wall releasing heat gain at night (Lechner 2001, p.152)
- 7.9 Planning opening to optimize cross ventilation
- 7.10 Shigeru Ban's Naked House (Hawthorne 2005, p.85)
- 7.11 Section Illustrating Opening Positions for optimal ventilation (Author 2007)
- 7.12 Ventilated Wall Concept (Author 2007)
- 7.13 British Pavilion, Seville (Steele 2005, p.122)
- 7.14 South Elevation depicting the floating glass roof (Christian Richters)
- 7.15 Red Location Apartheid Museum (Steele 2005, p.122)
- 7.16 Evolution of the Roofing Structure (Author 2007)
- 7.17 Exploded 3D Detail Illustrating Roof & Wall Construction (Author 2007)
