

A developmental framework proposal for the University of Pretoria's Groenkloof campus

A dissertation presented to the Department of Architecture (Programme in Landscape Architecture)
in the Faculty of Engineering,
Built Environment and Information Technology,
University of Pretoria,
November 2008

In partial fulfilment of the requirements for the Degree of
Magister in Landscape Architecture
(Professional)
by
Cenette Swart

Study Leader: Dr. P. T. Vosloo

Table of Contents

List of figures

1 INTRODUCTION.....p10

1.1 Background

1.2 Problem setting

1.3 Sub-problems

1.4 Hypothesis

1.5 Research Methodology

1.6 Delimitations

1.7 Assumptions

2 CONTEXT STUDY.....p13

2.1 Analysis

2.1.1 Contextual

- City context

2.1.2 History

2.1.3 Local

- Existing facilities

- Hydrological potential

- Existing circulation

- Existing vegetation

- Soil stability diagram

- Heritage overlay diagram

- Slope analysis

- Photographic analysis

- Interviews

2.1.4 Genius Loci

- Collage

2.1.5 Legislation

2.2 Synthesis

- Contextual

- Historical

- Local

- Genius Loci

- Legislation

2.3 Concept

2.4 Brief

FIGURE 2 - J.J Kirkness brickfields at the fountains, info photo 2654, title id IS 602674, Tswh. info in 3348244, 1935

3 DESIGN GOALS AND GUIDELINES.....p40

3.1 Environment

- 3.1.1 Stormwater
- 3.1.2 Ecology
- 3.1.3 Integration with sport, social and heritage

3.2 Heritage

- 3.2.1 Levels of scale
- 3.2.2 Chimneys

3.3 Social

- 3.3.1 Providing for all visitors

3.4 Sport

- 3.4.1 Hockey
- 3.4.2 Soccer
- 3.4.3 Water sport

4 FROM CONCEPT TO SITE.....p70

4.1 Concept diagram

- 4.1.1 Catalyst
- 4.1.2 Green spine
- 4.1.3 Material selection
- 4.1.4 Concept plans and sections

4.2 Concept applied on Groenkloof campus

4.2.1 HPC (High Performance Centre)

- 4.2.1.1 HPC (L.C de Villiers)
- 4.2.1.2 UP future development plan
- 4.2.1.3 HPC proposal for Groenkloof campus (KWP)
- 4.2.1.4 Groenkloof campus and proposed HPC

4.2.2 Green spine as stormwater management tool

- 4.2.2.1 Stormwater framework
- 4.2.2.2 Stormwater calculations
- 4.2.2.3 Water quality
- 4.2.2.4 Stormwater management plan and sport activities

4.2.3 Material choice sourced from relevant historical context

- 4.2.3.1 Kirkness chimneys
- 4.2.3.2 Red brick
- 4.2.3.3 Jacaranda plantation grid
- 4.2.3.4 Larger context response

4.3 Environmental, heritage, social and sport frame works

5 ENVIRONMENTAL FRAMEWORK.....p101

- 5.1 Stormwater
- 5.2 Ecology
- 5.3 Integration with sport, social and heritage
- 5.4 Details

6 HERITAGE FRAMEWORK.....p110

- 6.1 Levels of scale
- 6.2 Chimneys
- 6.3 Details

7 SOCIAL FRAMEWORK.....p115

- 7.1 Providing for all visitors

8 SPORT FRAMEWORK.....p119

- 8.1 Case study
- 8.2 Hockey
- 8.3 Soccer
- 8.4 Water sport
- 8.5 Details

9 CONCLUSION AND REFERENCES.....p127
