ACT

To Authorise the issue of Title to a portion of the farm "Middeldam" to Edward Egar Hurly and Isaac Sonnenberg.

WHEREAS Willem Pieter Geyer and Antonius Josephus Geyer were the registered owners by Title Deeds duly registered in the Land Registry of the Orange Free State on January 21st, 1869, of the farm "Middeldam," then within the Territory of the Orange Free State, and now within the Division of Griqualand West within this Colony, the said title containing no reservation of precious stones or minerals in favour of the Government of the Orange Free State:

And whereas title was granted on October 4th, 1878, by the Administrator of Griqualand West to the said Willem Pieter Geyer of half the said farm, the said half being known as Geyer's portion, and the said title, with diagram annexed, originally filed in the Land Registry Office of Griqualand West, is now filed in the Surveyor-General's Office, Cape Town, and a copy of the said Title Deed forms Schedule A hereto:

And whereas the said Edward Egar Hurly and Isaac Sonnenberg did in or about the year 1873 acquire from Antonius Josephus Geyer the remaining portion of the said farm but have been unable to obtain title of the said portion, which is known as Hurly's portion, from the Government under the law of this Colony:

And whereas the said portion, known as Hurly's portion, has been duly surveyed and the diagram thereof filed in the Surveyor-General's Office, Cape Town:

And whereas it is expedient that the Government be authorised and empowered to issue title to the said portion, in similar terms to the title annexed as a Schedule hereto, save that the said title be issued free of any reservation in favour of the Government of the rights to precious stones, gold or silver found on or under the surface of the said land:

The expression "current" means an electric current exceeding one-thousandth part of one ampere.

The expression "the company" has the same meaning as in this Act.

REGULATIONS.

1. Any dynamo used as a generator shall be of such pattern and construction as to be capable of producing a continuous current without appreciable pulsation.

2. One of the two conductors used for transmitting energy from the generator to the motors shall be in every case insulated from earth, and is hereinafter referred to as the "line"; the other may be insulated throughout, or may be insulated in such parts and to such extent as is provided in the following regulations, and is hereinafter referred to as the "return."

3. Where any rails on which cars run or any conductors laid between or within three feet of such rails form any part of a return, such part may be uninsulated. All other returns or parts of a return shall be insulated, unless of such sectional area as will reduce the difference of potential between the ends of the uninsulated portion of the return below the limit laid down by Regulation 7.

4. When any uninsulated conductor laid between or within three feet of the rails forms any part of a return, it shall be electrically connected to the rails at distances apart not exceeding 100 feet, by means of copper strips having a sectional area of at least one-sixteenth of a square inch, or by means of equal conductivity.

5. When any part of a return is uninsulated it shall be connected with the negative terminal of a generator, and in such case the negative terminal of the generator shall also be directly connected,

Digitised by the University of Pretoria, Library Services, 2013

through the current-indicator hereinafter mentioned, to two separate earth connections, which shall be placed not less than twenty yards apart.

Provided that in place of such two earth connections the company may make one connection to a main for water supply of not less than three inches internal diameter, with the consent of the owner thereof and of the person supplying the water; and provided that where, from the nature of the soil or for other reasons, the company can show to the satisfaction of an inspecting officer of the Government that the earth connections herein specified cannot be constructed and maintained without undue expense, the provisions of this regulation shall not apply.

The earth connections referred to in this regulation shall be constructed, laid, and maintained so as to secure electrical contact with the general mass of earth, and so that an electromotive force not exceeding four volts shall suffice to produce a current of at least two amperes from one earth connection to the other through the earth, and a test shall be made at least once in every month to ascertain whether this requirement is complied with.

No portion of either earth connection shall be placed within six feet of any pipe, except a main for water supply of not less than three inches internal diameter, which is metallically connected to the earth connections with the consents hereinbefore specified.

6. When the return is partly or entirely uninsulated the company shall, in the construction and maintenance of the tramway—(*a*) so separate the uninsulated return from the general mass of earth, and from any pipe in the vicinity; (*b*) so connect together the several lengths of the rails; (*c*) adopt such means for reducing the difference produced by the current between the potential of the uninsulated return at any one point and the potential of the uninsulated return at any other point; and (*d*) so maintain the efficiency of the earth connections specified in the preceding regulations as to fulfil the following conditions, viz.:—

(i) That the current passing from the earth connections through the indicator to the generator shall not at any time exceed either two amperes per mile of single tramway line, or 5 per cent. of the total current output of the station.

(ii) That if at any time and at any place a test be made by connecting a galvanometer or other current indicator to the uninsulated return and to any pipe in the vicinity, it shall always be possible to reverse the direction of any current indicated by interposing a battery of three Leclanche cells connected in series if the direction of the current is from the return to the pipe, or by interposing one Leclanche cell if the direction of the current is from the pipe to the return.

In order to provide a continuous indication that the condition (i) is complied with, the company shall place in a conspicuous

Digitised by the University of Pretoria, Library Services, 2013

No. 34—1899.

position a suitable, properly connected, and correctly marked current indicator, and shall keep it connected during the whole time that the line is charged.

The owner of any such pipe may require the company to permit him at reasonable times and intervals to ascertain by test that the conditions specified in (ii) are complied with as regards his pipe.

7. When the return is partly or entirely uninsulated, a continuous record shall be kept by the company of the difference of potential during the working of the tramway between the points of the uninsulated return farthest from and nearest to the generating station. If at any time such difference of potential exceeds the limit of seven volts, the company shall take immediate steps to reduce it below that limit.

8. Every electrical connection with any pipe shall be so arranged as to admit of easy examination, and shall be tested by the company at least once in every three months.

9. Every line and every insulated return or part of a return, except any feeder, shall be constructed in sections not exceeding one half of a mile in length, and means shall be provided for insulating each such section for purposes of testing.

10. The insulation of the line and of the return when insulated, and of all feeders and other conductors, shall be so maintained that the leakage current shall not exceed one-hundredth of an ampere per mile of tramway. The leakage current shall be ascertained daily, before or after the hours of running, when the line is fully charged. If at any time it should be found that the leakage current exceeds one-half of an ampere per mile of tramway, the leak shall be localised and removed as soon as practicable, and the running of the cars shall be stopped unless the leak is localised and removed within 24 hours. Provided that where both line and return are placed within a conduit this regulation shall not apply.

11. The insulation resistance of all continuously insulated cable used for lines, for insulated returns, for feeders, or for other purposes, and laid below the surface of the ground, shall not be permitted to fall below the equivalent of 10 megohms for a length of one mile. A test of the insulation resistance of all such cables shall be made at least once in each month.

12. When in any case in any part of the tramway the line is erected overhead and the return is laid on or under the ground, and where any wires have been erected or laid before the construction of the tramway in the same or nearly the same direction as such part of the tramway, the company shall, if required so to do by the owners of such wires or any of them, permit such owners to insert and maintain in the company's line one or more induction coils or other apparatus approved by the company for the purpose of preventing disturbance by electric induction. In any case in which the company withhold their approval of any such apparatus the owners may appeal to the Government who may, if they think fit, dispense with such approval.

Digitised by the University of Pretoria, Library Services, 2013

13. An insulated return shall be placed parallel to and at a distance not exceeding three feet from the line when the line and return are both erected overhead, or 18 inches when they are both laid underground.

14. In the disposition, connections, and working of feeders the Company shall take all reasonable precautions to avoid injurious interference with any existing wires.

15. The Company shall so construct and maintain their system as to secure good contact between the motors and the line and return respectively.

16. The Company shall adopt the best means available to prevent the occurrence of undue sparking at the rubbing or rolling contacts in any place, and in the construction and use of their generator and motors.

17. In working the cars the current shall be varied as required by means of a rheostat containing at least twenty sections, or by some other equally efficient method of gradually varying resistance

18. Where the line or return or both are laid in a conduit, the following conditions shall be complied with in the construction and maintenance of such conduit:—

(*a*) The conduit shall be so constructed as to admit of easy examination and access to the conductors contained therein and their insulators and supports.

(*b*) It shall be so constructed as to be readily cleared of accumulation of dust or other debris, and no such accumulation shall be permitted to remain.

(*c*) It shall be laid to such falls, and so connected to sumps or other means of drainage, as to automatically clear itself of water without danger of the water reaching the level of the conductors.

(*d*) If the conduit is formed of metal, all separate lengths shall be so jointed as to secure efficient metallic continuity for the passage of the electric currents. Where the rails are used to form any part of the return they shall be electrically connected to the conduit by means of copper strips having a sectional area of at least one-sixteenth of a square inch, or other means of equal conductivity, at distances apart not exceeding 100 feet. Where the return is wholly insulated and contained within the conduit, the latter shall be connected to earth at the generating station through a high resistance galvanometer, suitable for the indication of any contact or partial contact of either the line or the return with the conduit.

(*e*) If the conduit is formed of any non-metallic material not being of high insulating quality and impervious to moisture throughout, and is placed within six feet of any pipe, a non-conducting screen shall be interposed between the conduit and the pipe, of such material and dimensions

Digitised by the University of Pretoria, Library Services, 2013

as shall provide that no current can pass between them without traversing at least six feet of earth; or the circuit itself shall in such case be lined with bitumen or other non-conducting damp-resisting material in all cases where it is placed within six feet of any pipe.

(*f*) The leakage current shall be ascertained daily, before or after the hours of running, when the line is fully charged, and if at any time it shall be found to exceed half an ampere per mile of tramway the leak shall be localised and removed as soon as practicable, and the running of the cars shall be stopped unless the leak is localised and removed within 24 hours.

19. The Company shall, so far as may be applicable to their system of working keep records as specified below. These records shall, if and when required, be forwarded for the information of the Government and the Local Authority.

And whereas the Syndicate is desirous of obtaining Parliamentary powers to construct certain lines of tramway partly beyond and partly within the limits of the said Municipality.

And whereas the Cape Town and Green Point Tramway Company had under Section 3 of Act 23 of 1895 the exclusive right to run upon the tramways from Sea Point to Cape Town cars or carriages plying for hire, with flanged wheels or wheels specially adapted to run upon the rails of such tramways, which rights are now vested in the Metropolitan Tramways Company, Limited.

And whereas the Syndicate proposes to ask the authority of Parliament for running rights over the rails of the tramways herein specified, and to construct, lay down, equip, maintain and work certain lines of tramways within the limits of the Municipality of the City of Cape Town, and of the Municipality of Green Point and Sea Point.

leges they possess which might be or be held to be, infringed or affected by the proposed undertaking of the Syndicate.

Now, therefore, it is hereby agreed by and between the said parties:—

First: Throughout this Agreement the words "the Syndicate" shall mean "The Mills' Syndicate Limited" and its assigns and successors and every Company acquiring the whole or part of its undertaking, and the expression "the said Companies" shall mean "The Metropolitan Tramways Company, Limited," and "The City Tramways Company, Limited," and the assigns and successors of such Companies or either of them, and all persons and Companies acquiring any or all of their powers and rights.

Second: The Metropolitan Tramways Company, Limited (so far as is necessary for the effectual carrying out of this Agreement) waives the preferent right to construct tramways within the Municipality of Cape Town set forth in Section 27 of the Metropolitan Tramways Company Act, 1895, and the said Companies waive, forego, and abandon so far only as is necessary for the effectual carrying into effect of this Agreement and the rights hereunder granted, all rights, powers and privileges vested in or accruing to them, or either of them, upon the terms and conditions hereinafter set forth.

be necessary to connect the whole of the Kloof Road with Kloof Street.

Fourth: The Syndicate shall be entitled, at its own expense, to make, construct, lay down, and effect junctions with the permanent way and trolley wires and other overhead constructions, wherever necessary, to enable the cars running over the tramways constructed and laid down by the Syndicate to connect with the tramways of the said Companies.

fares for all passengers in the Syndicate's cars when entering on and for travelling over the Companies' lines at the Companies' current established rate of fare less the actual cost of working the Syndicate's cars whilst running on the Companies' lines, such cost to be on the basis of the Companies' cost per car mile for running their own cars, namely, for drivers and conductors' wages, cleaning, repairing and maintaining the car and its electrical and mechanical appliances; the issue of all tickets upon the Syndicate's cars on the Companies' lines shall be subject to the instructions and regulations of the Companies issued from time to time; the inspectors of the Companies shall have the right to enter the Syndicate's cars and inspect the conductors' way-bills and tickets or punches or other device employed for checking, and carry out every other duty as if they were on the Companies' cars.

Eleventh: Unless otherwise specially agreed with the said Companies any car of the Syndicate run over the Companies' lines in the exercise of the running powers acquired by the Syndicate in accordance herewith shall run the entire distance from Camp's Bay to the agreed loop lines in Cape Town, or *vice versa*, the Syndicate unless otherwise agreed shall forfeit the sum of ten shillings to the said Companies for each contravention of this clause.

Twelfth: The exercise of the running rights and the use of power under this Agreement shall not impose any liability or responsibility upon the Syndicate to repair or maintain the lines of tramway over which such running rights are exercised, or any streets or roads on or along which such tramways are laid, or any plant, apparatus, or appliances of the said Companies, provided that the Syndicate's cars shall be so maintained as not to cause undue wear and tear on the Companies' plant. If, in the opinion of the Companies, the cars of the Syndicate are defective or cause undue wear and tear on the Companies' plant, the Companies shall have the right to prevent any such defective cars from running on their lines till such defects are remedied to their satisfaction.

Thirteenth: The Syndicate in working their cars over the lines of the said Companies shall not be responsible for any accident or claim of any kind whatsoever which has been brought about or contributed to by any defect in the permanent way, points, crossings, overhead equipment, or any other plant, machinery, matter or thing which the said Companies are liable to maintain, or which comes within the scope of their control or management, and further the Syndicate shall not be rendered liable under this Agreement for any claim or claims

which have or may be made by reason of any obligation imposed on the said Companies or into which they have entered or may hereafter enter: Provided that nothing herein contained shall render the said companies liable for damages in consequence of any accident, occurrence, or defect wholly beyond the control of the said Companies.

Fourteenth: Nothing herein contained shall render the Syndicate or its undertaking liable to share in or make good to the said Companies any penalties that shall be incurred by the said Companies under the provision of any of the Acts controlling or affecting the said Companies, or any of them, whether with reference to penalties for not running and working the said lines of tramway or otherwise.

Fifteenth: The said Companies expressly waive whatever rights they may possess which may be infringed hereby and consent to power being granted to the Syndicate to construct, lay down, equip, maintain and work the lines of tramway or any of them proposed to be constructed by the Syndicate and more particularly described in the Parliamentary notices published by the Syndicate.

Sixteenth: This Agreement shall be and remain of full force and effect during the full period or periods for which the said Companies have the right and power to maintain and work their tramways, and during any extended period or periods that they may respectively have or exercise such rights.

Seventeenth: The said Companies and each of them separately undertake and agree not to discontinue to work their tramways or to do anything which would prevent the carrying into effect of this Agreement according to its true intent and purpose.

Eighteenth: In the event of any dispute occurring with reference to the interpretation of this Agreement or any part thereof, or any difficulty arising as to the carrying into effect of any clause hereof, such point or points shall be referred to arbitration, such arbitration, unless otherwise agreed, to be in accordance with the provisions of the "Lands and Arbitration Clauses Act, 1882," and of the "Arbitration Act, 1898," unless express provision for another form of arbitration or other settlement has been hereinbefore made, and in such latter case only if it be or become impossible to carry out such express provision.

Nineteenth: This Agreement shall be executed in triplicate, one copy to be delivered to each of the three contracting parties.

AGREEMENT.

This Agreement made on the Seventh day of September, One Thousand Eight Hundred and Ninety Nine, between

THE MUNICIPALITY OF GREEN POINT AND SEA POINT

(hereinafter styled "The Municipality") of the First Part, and

THE MILLS SYNDICATE LIMITED

(hereinafter styled "The Syndicate") of the Second Part.

Whereas the Syndicate has obtained leave from the House of Assembly of the Colony of the Cape of Good Hope to introduce into Parliament a Private Bill to authorise the construction,

Digitised by the University of Pretoria, Library Services, 2013

equipment, maintenance, and working of certain lines of Tramway from Camp's Bay to Cape Town, and from Camp's Bay to Sea Point and within the Municipality of Cape Town, and within the Municipality of Green Point and Sea Point.

And whereas the Municipality have required certain alterations in and additions to be made to the said Bill, and certain further provisions specially applicable to the Municipality to be incorporated as a Schedule to the said Bill.

And whereas it is expedient that such further provisions inasmuch as they affect the Municipality only and not other local authorities should be dealt with by separate agreement which shall be binding upon the parties hereto and the Assignees of the Syndicate.

And whereas the parties hereto have agreed as under now therefore these presents witness:—

FIRST.—The Tramway Company to be formed by the Syndicate to construct and work the proposed Tramways shall be entitled to lay down their tram-lines upon such part of the Kloof Road as is indicated between the letters A and B, upon the annexed Plan, notwithstanding that the same shall in part not be thirty feet in width, so soon as they shall have widened such part of the said Kloof Road, so that it shall correspond in width with the measurements shown in figures in black ink on the said Plan, provided always that all other portions of the Kloof Road, within the Municipality, in so far as traversed by Tramway No. 7, shall be increased to not less than thirty feet in width, in accordance with the terms of the proposed Act.

SECOND.—In like manner the said Tramway Company before constructing Tramway No. 8, shall pay to the Municipality the sum of Seven Hundred and Fifty Pounds (£750) Sterling, in lieu of widening the Road and setting back the footpath, kerbing, and channelling and other work incidental thereto, from the spot near the back of the property of C. H. van Zyl, Esq., up to which kerbing and channelling has already been made on the east side of the road down to the junction of the said Kloof Road with the Main Road: Provided always that this obligation shall be in addition to and in no way in substitution of the obligations to be imposed upon the said Company by the provisions of the proposed Act including *inter alia* provisions as to the construction and maintenance of the works and payment of rental.

THIRD.—The Tramway Company shall further at or before the expiration of a period of two years from the promulgation of the proposed Act notify the Council in writing whether or not it intends to construct Tramway No. 8 within the time allowed by the Act, and in the event

Digitised by the University of Pretoria, Library Services, 2013

of the Company not notifying the Council of its intention so to construct its rights under the Act in respect of Tramway No. 8 shall in the option of the Council cease at the expiration of such period of two years, and it shall be liable to pay to the Council the sum of One Thousand Pounds (£1,000) Sterling as a penalty for non-completion, such sum of One Thousand Pounds (£1,000) shall not however be in addition to the penalty payable under the Act for non-completion of the Tramways within the prescribed period.

FOURTH.—Before constructing Tramway No. 9 the said Tramway Company shall widen that portion of Queen's Road which lies between the upper side of the Victoria Road and the lower side of Regent Road to a width of forty-five feet, and shall widen Regent Road so that from Queen's Road to the existing terminus of the Tramway Station the width shall average forty-five feet.

FIFTH.—Should the Municipality before the Company commence working Tramway No. 9a decide to widen that portion of Queen's Road which lies between Regent Road and Beach Road, beyond thirty feet, it shall be entitled to widen such road to a limit of thirty-five feet at the expense of the said Tramway Company.

SIXTH.—All land required for the purpose of widening any street or road in accordance with this Agreement shall be acquired by the Municipality for the benefit of the Public at the cost of the Company. And the Company shall give to the Municipality prior to its undertaking the necessary expropriation due security for all costs, expenses and compensation to which the Municipality may be put in and about such widening and expropriation.

SEVENTH.—The said Tramway Company and its Assigns shall be bound to water the surfaces of the roadways between its tramway tracks and for the space of three feet on either side of such tracks, at least once in the forenoon and once in the afternoon of each day (except in rainy weather), during the period from the month of September to the month of April (both months inclusive), and during any periods of dry weather in the winter season when watering may be necessitated owing to there having been no rain for at least five days.

To Give effect to the Will of the late John Mealey dated 7th July, 1897.

Preamble.

WHEREAS in the year 1877, one John Mealey and his wife Eliza Jane Mealey did adopt an orphan girl named Ellen Amelia Griffin, then about five years of age, who thereupon was given and thereafter bore the name of Ellen Amelia Mealey but was usually called and known as "Nellie Mealey."

And whereas by virtue of such adoption as aforesaid the said John Mealey thereupon assumed the position of a father to the said Ellen Amelia Griffin (or Mealey) and continued to stand towards her in such position until his death, as if he had been her lawful father, and as though she had been born to him of his marriage with his wife aforesaid.

And whereas the said John Mealey who died on the 22nd day of March, 1898, and his aforesaid wife who pre-deceased him on the 28th day of October, 1893, left no child or other descendant him or her surviving.

And whereas the said John Mealey in his lifetime believed himself to be, and always stated that he was, without any living relative, next of kin, or heir-at-law, and none of such were ever known or heard of, and whereas no next of kin of the said John Mealy have since his death made themselves known, or have been traced or discovered.

And whereas on the 7th day of July, 1897, the said John Mealey did with his own hand in writing make his last holograph will, a copy whereof forms the schedule hereto.

No. 3—1900

And whereas the said will is written on three leaves and is signed by the testator, the said John Mealey, at the foot or end thereof on the third leaf, in the presence of two witnesses who there have also signed in attestation of his signature in conformity with law, but the second leaf does not bear the signature of the said testator and the first and second leaves do not bear the signature of the attesting witnesses.

And whereas the said will was after the death of the said John Mealey filed in the Office of the Master of the Supreme Court, but by reason of the informalities in the execution thereof, as set forth above, the said Master declined to recognise the said will as of any legal validity, and did appoint one Alan Bell Gordon of King William's Town to be the Executor Dative of the Estate of the said late John Mealey in order to administer the said estate "ab intestato."

And whereas the aforesaid Ellen Amelia Griffin (or Mealey), with the assistance of her husband James Robb, of Dordrecht, to whom she had been married without Community of Property on the 29th day of September, 1898, did thereupon institute an action in the Supreme Court of this Colony, as Plaintiff, against the Executor Dative appointed by the Master of the Supreme Court as aforesaid, as Defendant, in order to have it declared that the aforesaid holograph will was privileged and good and valid as the last will of the said late John Mealey in so far as in and thereby any benefits were conferred upon her, and for other relief.

And whereas the said Supreme Court by its judgment dated the 8th day of February, 1899 did order and declare that the said will was invalid, that it was not a privileged will, and that no relief could be granted to the said Plaintiff.

And whereas in default of any next-of-kin claiming the aforesaid estate the same will after the lapse of forty years become by law forfeited to the Crown.

And whereas the Government have agreed to waive the aforesaid right of forfeiture and to forego all claim to the said estate.

And whereas it is desirable that the aforesaid will of the said late John Mealey should be given effect to, and the estate of the said late John Mealey administered according to his intentions as expressed by him in the said will.

Be it therefore enacted by the Governor of the Cape of Good Hope, by and with the advice and consent of the Legislative Council and House of Assembly thereof, as follows:—

1. Subject to the provisions of the succeeding sections of this Act, the Estate of the late John Mealey of King William's Town, who died on the 22nd March, 1898, shall be administered by the Executor Dative appointed by the Master of the Supreme Court, according to the intentions of the said John Mealey as expressed by him in his last holograph will bearing date the 7th day of

5. The said security shall endure and remain in force for a period of Seven years calculated from the date of the death of the said late John Mealey, that is to say until the 22nd day of March, 1905, at the expiration of which period the said legatees shall be absolved from their said liability.

WHEREAS in the Agreement of the 11th March, 1899, it was agreed to continue the construction of the said line of Railway under the Agreement of the 2nd August, 1898, and under an Agreement of the 19th May, 1896, entered into between the Commissioner of Public Works and the Grand Junction Railways, Limited.

AND WHEREAS by reason of the said three Agreements being in force at the same time, certain complications and differences have arisen between the said parties hereto, and it has been deemed necessary to enter into a fresh Agreement, so as to make the conditions for the construction of the said line clearly understood by both parties.

NOW, THEREFORE, IT IS AGREED, subject to the approval of Parliament, that from the day upon which this Agreement and all plans, specifications and such other annexures as are herein mentioned are signed, the said Agreements of the 19th May, 1896, 2nd August, 1898, and 18th March, 1899, shall, as far as regards the said line of Railway from Oudtshoorn *via* Willowmore to a point on the Graaff-Reinet Railway at or near Klipplaat, hereinafter sometimes referred to as the Oudtshoorn-Klipplaat Line, be considered cancelled, and the following Agreement, conditions and stipulations shall be substituted therefor, and be binding on the parties hereto.

1. The Contractors undertake to construct the Oudtshoorn-Klipplaat Line as a complete line, including land, buildings, turntables, locomotive tanks, water supply, station yards, sidings, loops with spurs about every ten or twelve miles, permanent way, bridge superstructures, and all other matters and things necessary for the completion of the said line for the Government, in accordance with the specification, conditions of contract, plans, sections, drawings and schedules hereunto annexed, numbered—plans, sections and drawings 1 to 50 inclusive, and schedules 1 to 5 inclusive, respectively—and signed by or on behalf of the parties hereto, and in accordance with approved deviations therefrom, for

the sum of £4,150 (four thousand one hundred and fifty pounds) per mile. All land acquired for the purposes of the line of railway aforesaid shall be registered in favour of the Colonial Government.

2. The Line shall be constructed on a ruling gradient of 1 in 70 throughout instead of 1 in 40 as originally contemplated and with a minimum radius of curve of 8 chains, and any reasonable deviation required to secure the improved gradient and location shall (in so far as the same have not already been sanctioned) be sanctioned by the Commissioner provided they do not in his opinion unduly lengthen the line.

3. The Government will treat sections of not less than 20 (twenty) consecutive miles commencing at Klipplaat and similar sections following immediately thereon as completed sections when fully ballasted and when all works required to be done thereon with the exception of bridges of a greater span than fifty (50) feet have been completed to the satisfaction of the Engineer, and will pay for the same at the contract price of four thousand one hundred and fifty pounds (£4,150) sterling per mile, together with such additional amounts as may be payable to the Contractors under the provision of Clause 5 hereof, less the schedule value of any bridges over 50 (fifty) feet span and of accessories not completed, and also less the amount of any monthly or other payments made on such sections under this or any previous Contract. Notwithstanding such payments, the Contractors shall maintain such sections of the line in good and proper repair until the whole line is completed and taken over by the Government, except such portions thereof as may have been taken over by the Government from time to time.

4. The Government will pay to the Contractors monthly the value of the work executed on the line as certified to by the Engineer, less ten per cent. (10 %), such value to be calculated at the prices shown on Schedule No. 3 hereto annexed.

5. In addition to the Contract price per mile provided for in Section 1 hereof, the Government shall pay to the Contractors the extra cost of heavier permanent way, viz.:—60 lbs. rails instead of $46\frac{1}{4}$ lbs. rails, and sleepers 7 feet by 10 inches by 5 inches instead of sleepers 6 feet 6 inches by 9 inches by $4\frac{1}{2}$ inches, together with a proportionately increased amount for additional ballast for such heavier permanent way in excess of the amount shown on Type drawings hereto annexed, numbered 9 and 44, or say 21 cubic yards per chain and extra weight of fastenings, and shall also pay for the additional cube of earthwork and masonry or concrete occasioned by the reduction of the ruling gradient from 1 in 40 to 1 in 70 in excess of the average quantities per mile shown on the said original plans and sections hereto annexed, at the rate of 1s. 10d. (one shilling and tenpence) per cube yard for earthwork and 45s. (forty-five shillings) per cube yard for masonry or concrete, provided that the quantities so paid for shall in the

aggregate not exceed the difference between the total measurements on the original and the deviated line. The extra cost shall be computed at the prices fixed in said schedule except that

(*a*) Where the materials are provided or work done for which no prices appear in the said schedules, and such work or materials shall not be part of the complete line, the amounts to be paid shall be actual cost (including freight, insurance and other proper charges) plus ten per cent. (10 %) for Contractor's profit, and

(*b*) In the case of No. 9 deviation through Toverwater Poort, extending from 29 miles 42·81 chains, Sheet 3, to 98 miles 43·91 chains, Sheet 5, on the original section the following special prices shall be paid, viz.:—

Earthwork and soft shale ...	1s. 3d.	per cubic yard.
Hard shale and loose rock ...	2s. 6d.	do.
Hard rock, *e.g.*, Quartzite ...	4s. 3d.	do.

The amount to be paid shall be ascertained by taking out the quantities in masonry, excavation and embankment on the original section according to the above classification, and also dealing with the deviation or regrading on the original line in a similar manner, dividing the totals by the respective lengths of line in miles, the difference of quotients being the average excess per mile upon which payment is to be made.

6. It is agreed that as there is a contemplated saving in the length of the line by the adoption of the route proposed by deviation No. 13, extending from 15 miles 33·61 chains, Sheet 1, to 28 miles 77·92 chains, Sheet 2, on the original line, the Government will make a special payment in addition to all other payments at the rate of £5,000 (five thousand pounds) per mile to the Contractors for any distance actually saved by such deviation. This amount shall be paid upon completion of the whole line.

7. For the completion of the line from the west end of No. 13 deviation to Oudtshoorn, further deviations or regrades of the original section will have to be made to secure the 1 in 70 gradients, for which additional cube of earthwork and masonry or concrete over and above the average quantity per mile on the original section will be paid for at the rate of 1s. 10d. (one shilling and tenpence) and 45s. (forty-five shillings) per cubic yard respectively. In addition to deviations already approved, should other deviations be required by the Commissioner, the work in connection therewith shall be measured, and all work in excess of the average quantities per mile on the original section, which quantities shall be ascertained in manner aforesaid, shall be paid for at the prices shown on the Schedule No. 3 hereto annexed.

8. The Government will make payments in advance for the materials required for this line at the prices shown on Schedule

No. 5 hereto annexed, except that where materials are provided for which no prices appear in the said schedules, the amounts to be paid shall be actual cost (including freight, insurance and other charges) against the Shipping documents in London in the usual way.

9. The Contractors shall accept the payments hereinbefore stated in full satisfaction of all claims under this Contract.

10. The Government shall be at liberty to retain ten per cent. (10%) on all the above payments to the Contractors as a guarantee fund, such retention to be credited to the Contractors and taken into account on final settlement, but subject to the terms as regards retention money set forth in the Contract for construction of the Mossel Bay-Oudtshoorn Line *via* George dated 4th July, 1900.

The Government shall execute or pay for (at their option) all repairs necessitated by the fair wear and tear of such engines and rolling stock during use by the Contractors as aforesaid. Should any damage thereto be occasioned by accident, neglect, or any other cause than such fair wear and tear as aforesaid, the cost of the repairs consequent thereon shall be borne by the Contractors, and in case the same shall be executed by the Government, the Contractors shall pay therefor within fourteen days after the account thereof shall have been rendered by the Government, failing which, the amount payable in respect of such repairs may be deducted from any subsequent payments to be made by the Government to the Contractors under this Contract. The Contractors shall also, at their own expense, erect and maintain, to the satisfaction of the Engineer, such sheds as the Engineer shall, from time to time, require to be provided for the shelter of the said engine or engines, and the Engineer shall, at all

WHEREAS on the 19th day of May, 1896, on the 2nd day of August, 1898, and on the 18th day of March, 1899, certain Agreements were entered into for the construction *inter alia* of

> " A line of Railway from a point at or near Somerset East *via* Cookhouse, Bedford, to Fort Beaufort, and a line of Railway from Fort Beaufort *via* Alice to King William's Town,"

as subsidised lines, hereinafter sometimes referred to as the Somerset East-King William's Town Line:

> AND WHEREAS it has been decided to continue the construction of the " Line of Railway from Somerset East, *via* Cookhouse, Bedford, Fort Beaufort, and Alice, to King William's Town,"

as a Government Line.

NOW, THEREFORE, IT IS AGREED, subject to the approval of Parliament, that from the day upon which this Agreement and all plans, specifications, and such other annexures as are herein mentioned are signed, the said Agreements of the 19th May, 1896, 2nd August, 1898, and 18th March, 1899, shall, as regards the Somerset East-King William's Town Line, be considered cancelled, and the following Agreement, conditions and stipulations, shall be substituted therefor and be binding on the parties hereto:—

1. The Contractors undertake to construct the Somerset East-King William's Town Line as a complete line, including land, buildings, turntables, locomotive tanks, water supply, station yards, sidings, loops with spurs about every 10 (ten) or twelve (12) miles, permanent way, bridge superstructures, and all other matters and things necessary for the completion of the said line for the Government, in accordance with the specifications, conditions of contract, plans, sections, drawings and schedules hereunto annexed —plans, sections, and drawings numbered 1 to 69 inclusive, and schedules 1 to 6 inclusive—and signed by or on behalf of the parties hereto, and in accordance with approved deviations therefrom for the sum of £4,500 (four thousand five hundred pounds) per mile.

All land acquired for the purposes of the line of Railway aforesaid shall be registered in favour of the Colonial Government.

2. The line shall be constructed on a ruling gradient of 1 in 70 from Somerset East to Adelaide and from Red Hill to King William's Town and with a minimum radius of curve of 8 chains, any reasonable deviations required to secure the improved gradient and location shall (in so far as the same have not already been

sanctioned) be sanctioned by the Commissioner, provided they do not in his opinion unduly lengthen the line. From Adelaide to Red Hill the ruling gradient shall be 1 in 40, with a minimum radius of curves of 5 chains, as shown on the original plans and sections.

3. The Government will treat Sections of not less than 20 (twenty) consecutive miles commencing at Somerset East and King William's Town, and similar Sections following immediately thereon, as completed sections when fully ballasted and when all work required to be done thereon, with the exception of bridges of a greater span than fifty (50) feet, has been completed to the satisfaction of the Engineer, and will pay for the same at the contract price of four thousand five hundred pounds (£4,500) sterling per mile, together with such additional amounts as may be payable to the Contractors under the provision of Clause 4 hereof, less the schedule value of any bridges over 50 (fifty) feet span and of accessories not completed, and also less the amount of any monthly or other payments made on such Sections under this or any previous Contract. Notwithstanding such payments the Contractors shall maintain such sections of the line in good and proper repair until the whole line is completed and taken over by Government, except such portions thereof as may have been taken over by the Government from time to time.

4. The Government will pay to the Contractors monthly the value of the work executed on the line as certified to by the Engineer less ten per cent. (10 %), such value to be calculated at the prices shown on Schedule No. 3 hereto annexed.

5. In addition to the Contract price per mile provided for in Section 1 hereof, the Government shall pay to the Contractors the extra cost of heavier permanent way, viz., 60 lbs. rails instead of 46¼ lbs. rails, and sleepers 7 feet by 10 inches by 5 inches instead of sleepers 6 feet 6 inches by 9 inches by 4½ inches, together with a proportionately increased amount for additional ballast for such heavier permanent way, in excess of the amount shewn on the type drawing hereunto annexed numbered 29, or say 21 cube yards per chain and extra weight of fastenings, and shall also pay for the additional cube of earthwork and masonry or concrete occasioned by the reduction of the ruling gradient from 1 in 40 to 1 in 70 in excess of the average quantities per mile shown on the said original plans and sections hereunto annexed at the rate of 1s. 10d. (one shilling and tenpence) per cube yard for earthwork, and 45s. (forty-five shillings) per cube yard for masonry or concrete, provided that the quantities so paid for shall in the aggregate not exceed the differnce between the total measurements on the original and the deviated line. The extra cost shall be computed at the prices fixed in said Schedules, except that

where materials are provided or work done for which no prices appear in the said Schedules, and such work or materials shall not be part of the complete line, the

amounts to be paid shall be actual cost (including freight, insurance, and other proper charges), plus ten per cent. (10 %) for Contractor's profit.

6. In addition to deviations already approved, should deviations be required by the Commissioner, the work in connection therewith shall be measured, and all work in excess of the average quantities per mile on the original Section shall be paid for at the prices shown in the Schedule No. 3 hereto annexed. The land required for such deviations shall be provided by the Government, and the Contractors shall allow a deduction for the cost at the rate shewn in the said Schedule, calculated upon the mileage of the said deviations.

7. The Government shall, within fourteen days after the approval of Parliament to this Contract has been obtained, pay to the Contractors at the prices shewn in the Schedule No. 3 hereto annexed, the value of the work done on the said Line, as already certified, or to be certified, by the Engineer, as to quantities, after deducting the amount of subsidy already paid thereon, and any advances that may have been made, whether to the Contractors or the Grand Junction Railways, less 10 per cent. on the balance; and all such payments shall be taken into account, and shall be credited by the Contractors in the final settlement.

8. The Government will make payments in advance for the materials required for the Somerset East-King William's Town Line at the prices shown in the Schedule No. 6 hereto annexed against the shipping documents in London in the usual way, except that where materials are provided for which no prices appear in the said Schedule, the amounts to be paid shall be the actual cost (including freight, insurance and other charges), and for materials already delivered on the proposed line of railway will pay the difference between actual payments made and amounts due under Schedule prices.

9. Inasmuch as a deep cutting and a high embankment are being made at or near Wienand's Nek (from 37 miles 8 chains through mileage to 37 miles 41 chains, and from 35 miles 18 chains to 35 miles 58 chains respectively), to secure the said gradient of 1 in 70 a special payment of £5,000 (five thousand pounds) in addition to all other payments will be made in respect thereof, such payment to be made upon completion of the line to Bedford.

10. The Contractors shall accept the payments hereinbefore stated in full satisfaction of all Claims under this Contract.

11. The Government shall be at liberty to retain 10 % (ten per cent.) on all the above payments to the Contractors as a guarantee fund, such retention to be credited to the Contractors and taken into account on final settlement, but subject to the terms as regards retention moneys set forth in the Contract for the construction of the Mossel Bay-Oudtshoorn Line *via* George, dated 4th July, 1900.

NOW, THEREFORE, IT IS AGREED, subject to the approval of Parliament, that from the day upon which this Agreement and the Specification hereinafter mentioned are signed, the said Agreements hereinbefore mentioned shall, so far as regards the said line of Railway, be considered cancelled, and the following Agreement, conditions and stipulations shall be substituted therefor, and be binding on the parties hereto.

1. For and in consideration of the subsidy to be paid as hereinafter mentioned, and the rights and privileges conferred under the provisions of the Railway Extension Act of 1895, the Concessionary agrees to construct, in terms of the said Act, a line of Railway from Mossel Bay *via* George to Oudtshoorn in accordance with plans and sections signed or to be signed by the Engineer-in-Chief on behalf of the Government, and by the said William Langstaff Ainslie on behalf of the Concessionary. The Concessionary shall have the right to deviate at any point with the consent of the Commissioner.

2. The line of Railway shall be constructed in accordance with the specification hereunto annexed, marked "A," and with the plans and sections referred to in Clause 1, which plans and sections together with approved deviations therefrom the Concessionary hereby undertakes to accept as the plans and sections under this Contract and to sign the same when required.

3. It is agreed that the Concessionary may adopt a route beyond George towards Oudtshoorn *via* Zwart River or Kayman River Valley, either or both. The total distance, however, between Mossel Bay and Oudtshoorn shall not exceed seventy-five (75) miles.

4. The Concessionary shall be at liberty to reduce any grade to 1 in 70 in place of 1 in 40, and to increase curves to any radius of eight chains and upwards instead of five chains radius, and to lay 60 lb. rails instead of 46¼ lb. rails, with a corresponding increase in the size of sleepers and amount of ballast, provided that before any deviation in the route surveyed and set forth in the plans, sections and specifications of the Department is made, detailed plans, sections and specifications of the proposed deviation, accompanied by a statement of the reasons for such alteration, shall be submitted to and approved of in writing by the Engineer-in-Chief of the Railway Department prior to work being commenced on such deviation.

The subsidy shall, however, not exceed one hundred and fifty thousand pounds sterling (£150,000).

(40%) of the actual cost so certified, or £2,000 (two thousand pounds) per mile completed. The Government will retain the balance of ten per cent. (10%) of the authorised subsidy until completion of the line.

7. The amount of actual cost incurred in respect of the construction of any section of the line shall be ascertained either by the certificate of the Government Engineer, or in such other manner as the Governor shall approve, and the total amount of the subsidy shall be computed upon the actual cost of the construction of the entire line, including the cost of such bridges, culverts, tunnels, stations, or other fixed appurtenances of the line as the Governor may approve. All books, vouchers, drawings and other documents relating to the construction of the line, whether in the possession of the Concessionary or of their Contractor for the purpose of checking the cost of materials or work done, shall be available at all times for inspection by the Government Engineer or by any other duly authorised Officer.

8. 9. At any time after the expiration of twelve (12) years from the date hereof it shall be lawful for the Governor with the authority of both Houses of Parliament, and after giving at least six months' notice, to purchase from the Concessionary and take possession of the said line; the purchase price to be the amount of the actual cost determined as aforesaid with the addition of ten per cent. (10%) and the deduction of an amount for wear and tear to be determined in case of difference by arbitration; credit to be taken in the account for all amounts paid by way of subsidy.

10. (*e*) That any water required for such through trains shall be paid for at the rate which was formerly charged to the Metropolitan and Suburban Railway Company by the Colonial Government.

(*i*) The amount of toll shall be settled monthly for the earnings of the previous month, and the accounts of all such through traffic shall be open to the inspection of the Concessionary's duly appointed officer for the purpose of checking and agreeing to the accounts in respect of such through traffic.

12. Any junction work that may be necessary shall be carried out and subsequently maintained by the Colonial Government or by the Concessionary to the satisfaction of the Government as the Government may determine.

The cost of the work at the junctions shall be borne in equal shares by the Government and the Concessionary.

14. The ten per cent. (10%) retention money provided for in Clause No. 6 hereof shall be retained by the Government as part security for the due construction and completion of the line, and shall be paid to the Concessionary upon the completion of the line to the satisfaction of the Government Engineer.

15. The further security to the value of £50,000 (fifty thousand pounds sterling) lodged with the Cape Agent-General in London, together with the ten per cent. retention money held by the Government under the conditions of the Agreements entered into on the 4th July, 1900, for the construction of the Oudtshoorn-Klipplaat Line and the Somerset East-King William's Town Line respectively, shall be dealt with as follows:—

(2) Upon the completion of two-thirds of the actual value of the total work on the said line or on the completion of the section of the line from Mossel Bay to George, and the completion of the cuttings and embankments, tunnels, bridges and culverts, with the exceptions provided for in Clause 16 on the section of the line from George to Doorn River (48 miles from Mossel Bay on the original Government plan), a further third of the security and retention moneys shall similarly be paid to the Concessionary.

(3) The remaining one-third shall be paid to the Concessionary on the completion of the said line throughout.

And the Concessionary also undertakes, within 18 months from the approval of this Agreement by Parliament, to complete the section of the line from Mossel Bay to George, with the exception of platelayers' cottages and station buildings.

If the Concessionary shall not complete the sections of the line and works described in this Clause within the periods aforesaid the Concessionary shall forfeit to Government the sum of £10,000 (ten thousand pounds sterling), unless the delay is proved to the satisfaction of the Commissioner to have been caused by the Act of God, war, insurrection, rebellion, strikes, lock-outs, or combinations of workmen or other extraordinary or unforeseen circumstances beyond the control of the Concessionary or from or on the part of the Railway Department.

17. The Concessionary undertakes to push forward the construction of the line with all possible speed and to complete the same within two years of the date of the approval of this Agreement by Parliament. In the event of the non-completion of the line within the time hereinbefore mentioned, unless the delay is proved to the satisfaction of the Commissioner of Public Works to have been caused by the Act of God, war, insurrection, rebellion, strikes, lock-outs, or combinations of workmen, or other extraordinary or unforeseen circumstances beyond the control of the Concessionary, or from or on the part of the Railway Department, the security referred to in this Agreement to wit:—

and the Somerset East-King William's Town Lines, dated 4th July, 1900, and the security lodged with the Cape Agent-General shall be forfeited to the Colonial Government as and for liquidated damages sustained by the said Government for the non-completion of the said line, and thereupon the Agreement between the Government and the said Concessionary shall cease and determine, and it shall be lawful for the Government to enter upon and take possession of such incomplete line of Railway as has been constructed by the said Concessionary, and the Government shall thereafter as soon as the amount of the actual cost of such incomplete line shall have been ascertained pay to the said Concessionary the amount so ascertained less such amount as shall have been paid on account of subsidy and less the amount of retention money and security hereinbefore referred to.

18. The Concessionary shall be bound and hereby undertakes to work and to maintain the Mossel Bay-Oudtshoorn Line, when completed, in a proper and efficient manner, to the satisfaction of the Government, and to run not less than three trains per week in each direction for Passenger and Goods traffic, under payment in respect of any period during which the said line has not been properly worked and maintained of a sum calculated at the rate of £1,000 (one thousand pounds sterling) per month in case of non-compliance, such sum, however, not to exceed £25,000 (twenty-five thousand pounds sterling) in all, to be recoverable against the Company in the ordinary way, and to be a charge, if not recovered, against the purchase price of the line—should the Government exercise its option under this Contract. It is hereby expressly stipulated and agreed that the payment hereinbefore provided for, shall be as and for liquidated damages sustained by the said Government, and shall not be considered to be in the nature of a penalty or subject to the ordinary rules regarding the recovery of penalties for breaches of contract.

19. Upon completion of the Mossel Bay-George Section as stipulated for in Clause 16 of this Contract, the Concessionary shall be bound and hereby undertakes to work and maintain such Section to the satisfaction of the Government, and to run not less than three trains per week in each direction for Passenger and Goods traffic. Upon failure to comply with this undertaking, the Concessionary shall be liable to pay an amount similar to that provided for in Clause 18 of this Contract, the special conditions of which are to be applicable to the nature and means of recovery of any such amount. But it is distinctly understood any sums recovered under either this Clause or the said Clause 18, shall never together exceed the total sum of £25,000 (twenty-five thousand pounds sterling).

20. Should the Concessionary fail to work and maintain the lines referred to in the two preceding Clauses, or either of them, in manner and subject to the conditions therein provided, it shall

And for that purpose the Government shall have the same rights to enter upon the said lines and all buildings, works and ground appurtenant thereto, as it would have if the said lines were lines of Government Railway.

21. It is hereby agreed that so long as the Government has not exercised any option of purchase under this agreement, and so long as the Concessionary works and maintains the said Mossel Bay-Oudtshoorn Line to the satisfaction of the Government, then the said Government shall not authorise or sanction the construction of any line of Railway from Oudtshoorn, or any point beyond, on the Oudtshoorn-Klipplaat Line to any point on any line of Railway running from or beyond Riversdale in the direction of Mossel Bay.

22. All materials and things (except the Concessionary's plant and temporary materials) manufactured in or derived from Europe and America and shipped by the Concessionary to the Colony for the purposes of this Contract shall, before being removed from the places at which they are prepared, be submitted to the inspection and approval of the Consulting Engineers or the Inspecting Engineer, and the Concessionary shall give the Agent-General in London, or the Consulting Engineer in America, not less than ten days' notice in writing before removing any such materials or things for shipment.

24. When any materials or things manufactured in or derived from Europe or America and intended to be shipped thence by the Concessionary for the purposes of this Contract (but not including Concessionary's plant or temporary materials) have been inspected and approved as required by this Contract, and have been actually shipped, the Concessionary shall furnish the Consulting Engineers with a statement of the same in a form to be settled by the Agent-General, and such statement shall be certified as correct by the Concessionary or the Agent and the Inspecting Engineer and the Shipping Agents (who shall be persons named or approved by the Agent-General) respectively

under their respective hands, and within seven days next after any such statement shall have been delivered at the office of the Consulting Engineers, except in cases of unavoidable delay, they shall certify the value of the materials or things included in such statement according to the prices contained in the Schedule hereto, or if prices be not therein specified for any materials or things, then, according to the actual cost as provided for in Clause 28 and otherwise contemplated by this Contract, and on presentation by the Concessionary, at the office of the Agent-General in London, of any such certificate, with the invoices, bills of lading, receipts for freight, and polices of insurance of the articles so shipped, duly assigned or otherwise transferred to the Agent-General on behalf of the Government, the amount, so certified, shall, within one week from the day of the presentation and upon delivery of the said documents, be paid to the Concessionary by a cheque or order, payable to such person or persons as they may in writing direct, on the bankers of the Agent-General in London, payable at sight. All insurance contemplated by this Contract shall be effected in an office or offices approved by the Agent-General.

25. Messrs. Gregory and Eyles and Sir Douglas Fox and Sir Charles Metcalfe, and an Engineer in America, to be nominated by the Agent-General and the Consulting Engineers in England, shall be the Consulting Engineers for the purposes of this Contract, and in case of their ceasing to be such Consulting Engineers the Government will, in such manner as they may see fit, appoint other Civil Engineers in their place.

26. All materials, plant or stores required for or in connection with the construction of the said Railway shall be carried and conveyed over the Government lines at the rate of 1d. per Cape ton per mile, and all materials, plant or stores sold, supplied or lent, or work done by the Railway Department for the Concessionary shall be sold, supplied, lent or done at nett cost and shall be charged against and deducted from the subsidy hereinbefore mentioned.

Further, every reasonable assistance for the speedy and economic construction and working of the proposed line shall at all times be afforded by the Government, including the lending of all type drawings and sections and results of surveys.

27. The Government will not charge the Concessionary with any import duty in respect of Railway material (See Act No. 6 of 1898, Clause 102), but for all materials and things including merchantable and consumable articles the usual import duties must be paid by the Concessionary.

28. The Government will pay for the materials required for this line at the rate of forty per cent. (40%) of the value at the prices shown in the Schedule marked "C" hereto annexed, against the shipping documents in London in the usual way, except that where materials are provided for which no prices appear in the said Schedule the amounts to be paid shall be ascertained upon the actual cost (including freight, insurance and other charges).

ACT

To Indemnify the Governor and others in respect of certain prorogations of Parliament and non-registration of Parliamentary Voters.

Preamble. WHEREAS, by the seventy-seventh section of the Constitution Ordinance" as amended, ratified, confirmed and finally enacted by the Queen's Most Excellent Majesty, with the advice of Her Privy Council by Order in Council bearing date the 11th day of March, 1853, it is enacted that there shall be a session of the Parliament of the Cape of Good Hope once at least every year so that a period of twelve calendar months shall not intervene between the last sitting of Parliament in one session and its first sitting at the next session.

And whereas, by the seventy-fourth section of the said Ordinance as amended, ratified, confirmed and finally enacted, as aforesaid, it is enacted that it shall be lawful for the Governor of the Cape of Good Hope whenever he shall see fit so to do to prorogue, in the manner provided in the said section, the Legislative Council and the House of Assembly of the said Colony.

And whereas His Excellency the Governor did on the 15th day of October in the year 1900 prorogue the said Legislative Council and the said House of Assembly then last sitting in session.

And whereas, at the time of and subsequent to the said prorogation there existed and continued to be a state of war

between the Government of Her late Majesty Queen Victoria and of His Majesty King Edward the Seventh and the Governments respectively of the late Orange Free State and the late South African Republic, followed by invasion of Her Majesty's Territories in this Colony, and rebellion and by the proclamation or continued imposition of Martial Law throughout the Colony, the Transkeian Territories alone excepted;

And whereas, by reason of the said war, invasion, rebellion and imposition of Martial Law, it was deemed and considered by His Excellency the Governor that the provisions of the said seventy-seventh section of the said Ordinance could not safely or in the public interest be complied with, and His Excellency the Governor accordingly further prorogued the said Legislative Council and the said House of Assembly on the several dates following, to wit: the 12th day of September and the 14th day of November in the year 1901, and the 13th day of January, the 1st day of March, the 3rd day of April, and the 8th day of July in the year 1902;

And whereas, by reason of the said prorogations as aforesaid, the Parliament of the Cape of Good Hope has not duly met in session as required by the said seventy-seventh section of the said Ordinance;

And whereas, further, by the fifth section of "The Registration of Parliamentary Voters Amendment Act, 1899," it was enacted that the next registration of Parliamentary Voters should be commenced and undertaken not later than the last day of February, 1901;

And whereas during the time fixed and limited by the said section of the Act there was and existed such war, invasion, rebellion and Martial Law as aforesaid;

And whereas by reason of the said war, invasion, rebellion and Martial Law, it was deemed impracticable, inexpedient and not in the public interest that the registration of voters aforesaid should be undertaken within the time fixed and limited as aforesaid, and such registration was accordingly not so undertaken;

And whereas it is necessary to provide for a registration of Parliamentary voters:

Be it enacted and declared, and it is hereby enacted and declared, in Parts I. and II. of this Act respectively, by the Governor of the Cape of Good Hope by and with the consent of the Legislative Council and the House of Assembly thereof, as follows:—

PART I.

The Prorogations of Parliament.

The Governor and other persons indemnified in respect of such prorogations.

2. 3. His Excellency the Governor, and all persons whatsoever upon whom, by the said Act of 1899 and any and all other Acts of Parliament, duties have been and are imposed in respect of the registration of Parliamentary Voters, are hereby freed, discharged, and indemnified from all and every liability and responsibility whatsoever which has or may have arisen or may arise towards Her Late Majesty Queen Victoria, His Majesty King Edward the Seventh, his heirs and successors, or towards any person and all persons whatsoever by reason that the registration of voters, required to be taken within the time limited and in the manner prescribed by the aforesaid fifth section, and the provisions of the said Act, or any other Act relative to the registration of Parliamentary Voters was not commenced and undertaken within the time limited and in the manner provided by the said Act or Acts.

(2) Every claim against a candidate at an election or his election agent in respect of any expenses incurred on account of or in respect of the conduct or management of such election which is not sent in to the election agent within the time limited by this Act shall be barred and shall not be paid; and, subject to such exception as may have been allowed in pursuance of this Act, an election agent who pays a claim in contravention of this enactment shall be guilty of an illegal practice.

(3) Except as by this Act permitted, the time limited by this Act for sending in claims shall be thirty-five days after the day on which the candidates returned are declared elected.

(4) All expenses incurred by or on behalf of a candidate at an election, which are incurred on account of or in respect of the conduct or management of such election, shall be paid within the time limited by this Act and not otherwise; and, subject to such exception as may be allowed in pursuance of this Act, an election agent who makes a payment in contravention of this provision shall be guilty of an illegal practice.

24. (1) Within fifty days after the day on which the candidates returned at an election are declared elected, the election agent of every candidate at that election shall transmit to the returning officer a true return (in this Act referred to as a return respecting election expenses), in the form set forth in the Second Schedule to this Act or to the like effect, containing, as respects that candidate:—

(2) The return so transmitted to the returning officer shall be accompanied by a declaration made by the election agent before

a justice of the peace in the form in the Second Schedule to this Act (which declaration is in this Act referred to as a declaration respecting election expenses).

(3) Where the candidate has named himself as his election agent, a statement of all money, securities, and equivalent of money paid by the candidate shall be substituted in the return required by this section to be transmitted by the election agent for the like statement of money, securities, and equivalent of money received by the election agent from the candidate, and the declaration by an election agent respecting election expenses need not be made, and the declaration by the candidate respecting election expenses shall be modified as specified in the Second Schedule of this Act.

(4) At the same time that the agent transmits the said return, or within seven days afterwards, the candidate shall transmit or cause to be transmitted to the returning officer a declaration made by him before a justice of the peace, in the form in the first part of the Second Schedule to this Act (which declaration is in this Act referred to as a declaration respecting election expenses).

(5) If in the case of an election, the said return and declarations are not transmitted before the expiration of the time limited for the purpose, the candidate shall not, after the expiration of such time, sit or vote in either House of Parliament as the case may be until either such return and declarations have been transmitted, or until the date of the allowance of such an authorised excuse for the failure to transmit the same, as in this Act mentioned, and if he sits or votes in contravention of this enactment he shall forfeit one hundred pounds for every day on which he so sits or votes to any person who sues for the same.

(6) If without such authorised excuse as in this Act mentioned, a candidate or an election agent fails to comply with the requirements of this section he shall be guilty of an illegal practice.

(7) If any candidate or election agent knowingly makes the declaration required by this section falsely, he shall be guilty of an offence, and on conviction thereof or indictment shall be liable to the punishment for wilful and corrupt perjury: such offence shall also be deemed to be an illegal practice within the meaning of this Act.

(8) Where the candidate is out of the Colony at the time when the return is so transmitted to the returning officer, the declaration required by this section may be made by him within fourteen days after his return to the Colony, and in that case shall be forthwith transmitted to the returning officer, but the delay hereby authorised in making such declaration shall not

exonerate the election agent from complying with the provisions of this Act as to the return and declaration respecting election expenses

(9) Where, after the date at which the return respecting election expenses is transmitted, leave is given by the court for any claims to be paid, the candidate or his election agent shall, within seven days after the payment thereof, transmit to the returning officer a return of the sums paid in pursuance of such leave, accompanied by a copy of the order of the court giving the leave, and in default he shall be deemed to have failed to comply with the requirements of this section without such authorised excuse as in this Act mentioned.

Provision in case of non-transmission of return, &c.

25 (1.) Where the return and declarations respecting election expenses of a candidate at an election have not been transmitted as required by this Act, or being transmitted contain some error or false statement, then:

(*a*) if the candidate applies to the Court and shows that the failure to transmit such return and declarations, or any of them, or any part thereof, or any error or false statement therein, has arisen by reason of his illness, or of the absence, death, illness or misconduct of his election agent or sub-agent or of any clerk or officer of such agent, or by reason of inadvertence or of any reasonable cause of a like nature, and not by reason of any want of good faith on the part of the applicant, or

(*b*) if the election agent of the candidate applies to the Court and shows that the failure to transmit the return and declarations which he was required to transmit, or any part thereof, or any error or false statement therein, arose by reason of his illness or of the death or illness of any prior election agent of the candidate, or of the absence, death, illness or misconduct of any sub-agent, clerk, or officer of an election agent of the candidate, or by reason of inadvertance or of any reasonable cause of a like nature, and not by reason of any want of good faith on the part of the applicant, the court may, after such notice of the application and on production of such evidence of the grounds stated in the application, and of good faith of the application, and otherwise, as to the court seems fit, make such order for allowing an unauthorised excuse for the failure to transmit such return and declaration, or for an error or false statement in such return and declaration, as to the court seems just.

(2.) Where it appears to the court that any person being or having been selected agent or sub-agent has refused or failed

to make such return or to supply such particulars as will enable the candidate and his election agent respectively to comply with the provisions of this Act as to the return and declaration respecting election expenses, the court before making an order allowing the excuse as in this section mentioned shall order such person to attend before the court, and on his attendance, shall, unless he shows cause to the contrary, order him to make the return and declaration, or to deliver a statement of the particulars required to be contained in the return, as to the court seems just, and to make or deliver the same within such time and to such person and in such manner as the court may direct, or may order him to be examined with respect to such particulars, and may in default of compliance with any such order, order him to pay a fine not exceeding five hundred pounds, or to be imprisoned without hard labour for any term not exceeding six months or to both such fine and such imprisonment.

(3) The order may make the allowance conditional upon the making of the return and declaration in a modified form or within an extended time, and upon the compliance with such other terms as to the court seem best calculated for carrying into effect the objects of this Act; and an order allowing an authorised excuse shall relieve the applicant for the order from any liability or consequences under this Act in respect of the matter excused by the order; and where it is proved by the candidate to the court that any act or omission of the election agent in relation to the return and declaration respecting election expenses was without the sanction or connivance of the candidate, and that the candidate took all reasonable means for preventing such act or omission, the court shall relieve the candidate from the consequences of such act or omission on the part of his election agent.

(4) The date of the order, or if conditions and terms are to be complied with the date at which the applicant fully complies with them, is referred to in this Act as the date of the allowance of the excuse.

Return of election expenses, summary of, to be published.

26. (1) The returning officer at an election shall, within fourteen days after he receives from the election agent of a candidate a return respecting election expenses, publish a summary of the return in an English or Dutch newspaper circulating in the electoral division for which the election was held, accompanied by a notice of the time and the place at which the return and declarations (including the accompanying) documents can be inspected, and may charge the candidate in respect of such publication an amount not exceeding ten pounds.

(2) The return and declarations (including the accompanying documents) sent to the returning officer by an election agent shall be kept at the office of the returning officer, or some

convenient place appointed by him, and shall at all reasonable times during two years next after they are received by the returning officer be open to inspection by any person on payment of a fee of one shilling and the returning officer shall on demand furnish copies thereof or of any part thereof at the price of twopence for every seventy-two words. After the expiration of the said two years the returning officer for the time being may cause the said returns and declarations (including the accompanying documents) to be destroyed, or, if the candidate or his election agent so require, shall return the same to the candidate.

Application of Section 83, Act 9 of 1892.

27. Notwithstanding anything contained in this Act to the contrary the provisions of section 83 of Act No. 9 of 1892 with regard to personation, and sub-section 8 of section 8 of Act No. 9 of 1883 with regard to corrupt practices shall extend to every illegal practice mentioned in this Act.

Threats and coercion.

28. Every person who shall, directly or indirectly, by himself, or by any other person on his behalf, make use of, or threaten to make use of, any force, violence or restraint, or inflict or threaten to inflict by himself, or by any other person, any temporal or spiritual injury, damage, harm or loss upon or against any person in order to induce or compel such person to vote, or refrain from voting, or on account of such person having voted, or refrained from voting, at any election or who shall by abduction, duress or any fraudulent device or contrivance, impede or prevent the free exercise of the franchise of any elector, or shall thereby compel, induce or prevail upon any elector either to give, or to refrain from giving, his vote at any election shall be guilty of an illegal practice and shall be liable to a fine not exceeding £200 and in default of payment to imprisonment without hard labour for any term not exceeding twelve months.

Jurisdiction.

29. Not less than two judges of the Supreme Court shall have jurisdiction to try and determine all charges of illegal practice or contravention of any provisions of this Act.

Mala fides of informant.

30. Should, in the opinion of the Court trying any of the offences under the provisions of this Act, the person upon whose information proceedings were instituted have acted vexatiously or in bad faith, the Court may, should it appear right and fitting so to do, order such person to pay the costs incurred in defence or opposition, such costs to be taxed and recovered by civil process.

SCHEDULE "A."

Schedule A.

MEMORANDUM OF AGREEMENT entered into between Thomas Rees Price, in his capacity as General Manager of the Cape Government Railways, and as such acting for and on behalf of the Colonial Government of the one part, and Carl Jeppe, Managing Director of the New Cape Collieries Company, Limited, duly authorised thereto by the said Company (hereinafter styled the Company), of the other part.

Whereas, the Colonial Government has decided to exercise its right of purchasing the Railway of the New Cape Collieries, Limited, in terms of section 3 of Schedule "F" of Act 19 of 1900, upon certain conditions and stipulations.

Now, therefore, it is agreed between the said parties hereto, that the Colonial Government shall purchase and the said Company shall sell, the Railway line from Bamboo Junction to the terminus at Zeekoegat, including all servitude rights connected therewith, upon the following terms and conditions:—

1. The purchase price of the said line and rights, including all surplus permanent way material now on the property of the said Company and adjacent sidings, to be £50,000, subject to the terms laid down in a memorandum of agreement, dated 24th August, 1900, between the Colonial Government and the Cape Collieries, Limited, and embodied in Act 19 of 1900, less any payments already made by way of subsidy.

2. The said Company shall acquire and cede to the Colonial Government perpetual Railway servitudes for Railway purposes on the land over which the Railway at present passes, in every case where such land is only held by lease and where such perpetual servitudes have not yet been obtained. The sum of £2,000 to be held over from the purchase price until the aforesaid perpetual servitudes are legally registered against the properties which they affect and are ceded to the Colonial Government, the said Company undertaking to use every endeavour to expedite this matter.

3. The Company shall construct a Branch Line to their Deep Kloof Mine of such a character as to be approved of by the General Manager of the Cape Government Railways. The second-hand permanent way material, viz:—Rails, sleepers, points, fastenings and culvert heads for the construction of this siding to be supplied by the Railway Department free of cost; the said Company to bear all other costs of construction. The cost of maintaining this line shall be borne equally by the Colonial Government and the said Company.

The material aforesaid will remain the property of the Cape Colonial Government, and in the event of the Company ceasing to work this mine or other mines adjacent thereto served by the Branch Line, the General Manager shall be at liberty to remove such material or any portion thereof.

4. The said Company shall construct a Branch Line to Hind's Mine of such a character as to be approved of by the General Manager of the Cape Government Railways. All second-hand permanent way material, viz:—Rails, sleepers, points and fastenings which may be necessary for this purpose will be furnished by the Railway Department, the Company to bear all other costs of construction.

In view of the Railway Department providing the necessary materials for building this Branch Line, it is to be understood that if during the period of five years from the date of completion of the siding, the earnings of the additional traffic carried by the railway to and from the Branch Line (other than coal for the Cape Government Railway Locomotive Department, but including the traffic of the said Company and of any other firms or Companies using the said Line on the basis of a 10 per cent. deduction of Railway Revenue on such traffic) amount to the cost of the materials so supplied, then the Company will be relieved of its liability; but if the 10 per cent. of Railway Revenue to and from such Branch Line does not amount thereto the Company will, at the expiration of the five years, pay any difference.

5. The Company hereby agrees to maintain the Hind's Branch Line until such time as traffic from other coal mines than those owned and worked by the Company passes over the siding, when the Cape Government Railway Department will bear one-half the cost of maintenance.

6. The Government hereby agrees to convey stone for the building of Branch Lines to the Deep Kloof and Hind's Mines free of charge over any portion of the line of the said Company now being purchased by the Government.

7. The Branch Lines to the Deep Kloof and Hind's Mines will be constructed by the Company under the supervision and to the satisfaction of Mr. McConaghy, or such other Engineer as the

General Manager shall appoint on behalf of the Government (who is also to survey the same), in such manner as to be safe and suitable for Government rolling-stock, including engines, to travel over them.

8. The Company shall allow to the Colonial Government free of charge, rights of entrance upon their property, both at Deep Kloof and Hind's Mine, as well as along the routes of the Branch Lines, for the conveyance of and dealing with traffic of all descriptions to be received and delivered, if considered necessary by the Government, and perpetual rights to the use of the ground for loading and unloading and dealing with such traffic as and where required along such lines of Railway; and also the right of constructing sidings over the land of the said Company, free of charge, to be connected with the Deep Kloof Branch and Hind's Mine Branch Lines at the discretion of the General Manager of the Cape Government Railways; the Colonial Government to have the rights of running over the said Deep Kloof and Hind's Mine Branch Lines free of cost, and to charge and retain for the conveyance of traffic, other than coal for the Cape Government Locomotive Department, both on the said Branch Lines and on the Railway Line from Bamboo and Zeekoegat acquired by the Colonial Government under this Agreement at the same rates as those sanctioned to be charged by the Company as per Schedule attached marked A, until 4 per cent. is paid on the capital expenditure incurred, over and above working expenses and maintenance, after which the rates may be modified at the discretion of the General Manager to the intent that the interest on Capital Expenditure may be maintained as nearly as practicable at 4 per cent.

In consideration of the said purchase, the Company agrees to deliver (after the completion of the Line to the Deep Kloof Mine, which the said Company undertakes to complete with all reasonable despatch) and the Government agrees to purchase for two years and, at the option of the Government, for a period not exceeding three years more, the following proportions of the output of coal by the said Company, the conditions of delivery to be those as set forth in the special Coal Contract entered into this day between the parties hereto.

(*a*) For the first year 80 per cent. with a minimum output of 3,000 tons per month.

(*b*) For the second year as well as the third, fourth and or fifth years, 70 per cent. with a minimum output of 4,000 tons per month.

(*c*) The maximum output for the purposes of this Agreement for the five years to be 6,000 tons per month.

No. 38—1902.

If the Government wishes to exercise its right of purchasing the 70 per cent. output during either the third, fourth and/or fifth years aforesaid, notice of its intention to do so shall be given at least 6 months before the commencement of each year, the year being reckoned for the purposes of this Agreement as commencing on January 1st of each year. It is to be understood that the supply of coal from the Deep Kloof, Hind's or any other mines which the said Company may work and acquire in the area served by the railway about to be purchased, and which the General Manager of the Cape Government Railways may require, is to be of a quality suitable for locomotive purposes, to the satisfaction of the General Manager, and of a quality not inferior to that hitherto supplied by the Company to the Colonial Government for use on the Railways.

10. The price to be paid for such coal delivered into trucks at the sidings about to be constructed to the Deep Kloof Mine and/or to the Hind's Mine shall be 15s. 3d. per ton of 2,000 pounds.

11. Until the completion of the construction of the Lines to the Deep Kloof and Hind's Mines the said Company agrees to deliver to the Railway Department not less than 90 per cent. of their output of coal, subject to the usual conditions, at 18s. per ton of 2,000 pounds, delivered into trucks at the sidings on the Line about to be purchased.

12. In consideration of the purchase it is further agreed that should the Colonial Government wish to extend the line or siding to the vicinity of the farm "Romansfontein" from the terminus of the line of the said Company at "Zeekoegat" or from any other part of the line over the ground of the said Company in the direction of "Romansfontein," a right of way for such railway and all such rights in connection therewith as the Company possesses, including the right of water for railway purposes, shall be granted by the Company, free of charge.

5. Nothing in this Act contained shall be deemed, construed or taken to deprive the owner of any property situate within this Municipality of any right of access to such property over any portion of the said lands which at the date of the taking effect of this Act was used as a public thoroughfare or over which such owner has acquired a right of access.

12. If in the opinion of the Council or its authorised officer any private land or buildings erected or to be erected thereon cannot be drained or connected with the main sewer, except by constructing a drain through private property, the Council shall be entitled to expropriate or acquire such land as may be necessary for the purpose of constructing a drain over such private land or may acquire a servitude or right of drainage in favour of the owner for the time being of the first mentioned land or buildings upon payment of reasonable compensation, which compensation the Council shall be entitled to charge against the owner for the time being of the first-mentioned property.

Eleventh.—The said applicants shall be responsible for the safe keeping of all trucks or other property of the Colonial Government used on the said siding, loop or branch and in case the Colonial Government shall sustain any loss or damage or be put to any expense by reason of the neglect of the said applicants or their servants to adopt reasonable care and precaution in connection with the said trucks or other property, the said applicants shall make good such loss or damage or pay such sum or sums as the Colonial Government may pay or expend through their default.

Government Railway Department on behalf of the Syndicate, although the said Railway was not completed within the time allowed by Act No. 4 of 1900.

And whereas certain negotiations were in the early part of 1903 carried on between representatives of the Syndicate and the Commissioner of Public Works with a view to the purchase by the Colonial Government of the said Railway, subject however to the condition that the width for the right of way should be increased from 30 feet as provided by section 5 of Act 17 of 1898 to 40 feet, and that the Syndicate should acquire and provide the Government with a strip of land of a minimum width of 40 feet from the present terminus of the line near Ottery Road, Wynberg, to a point on the Simonstown side of the Cape Government Railway Station at Diep River for the purpose of enabling the Government to extend the Railway to Diep River, and on 4th June, 1903, provisional conditions of sale were executed between the Syndicate and the Commissioner of Public Works for the purchase of the Railway and Land as aforesaid, which conditions of sale formed Schedule M of a Bill transmitted to the House of Assembly by His Excellency the Governor, and published in accordance with the Standing Rules and Orders of the House of Assembly, on pages 2146-2151 of the *Gazette* of 19th June, 1903, but owing to the said Bill having not been passed during the then Session of Parliament the said conditions of sale became null and void.

And whereas, in contemplation of the completion of the said purchase by the Government the Syndicate acquired an additional strip of ground, 10 feet wide, from sundry owners of land between Maitland and the present terminus near Ottery Road, Wynberg, and acquired certain lands between the said present terminus and a point near Diep River, for the purpose of the extension by Government as aforesaid.

And whereas it is desired by the said Syndicate to extend the said railway to Diep River at its own cost.

And whereas it is expedient to amend section 5 of Act No. 17 of 1898 so as to provide for an increase of the width of the line, and to provide that the powers conferred upon the Syndicate by Act No. 17 of 1898 and Act No. 4 of 1900 should be perpetuated and deemed to subsist and to have subsisted in favour of the Syndicate and its assigns, and to legalise, ratify and confirm all rights, agreements, acts, matters and things devolving upon, entered into, made or done by the Syndicate which, owing merely to the lapsing of the period provided in section 1 of Act No. 4 of 1900, may be void or illegal, and to indemnify the Syndicate, its directors, officers, servants, or contractors in connection therewith, and in other respects to amend and extend Act No. 17 of 1898, and in particular to authorise and empower the Syndicate to continue the railway from its present terminus at

And whereas plans and sections of the line have been deposited with the Clerk of the House of Assembly.

Be it therefore enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council and House of Assembly thereof, as follows:—

He shall then fold the ticket so that the stamp be visible, and having held up the ticket so that the polling officer can recognise the stamp, shall drop the ticket in the ballot box placed in front of the polling officer.

(1) The agent shall, as regards such income, make the returns, be assessed, be liable to income tax, and otherwise be subject to the provisions of this Act, to do all acts and things thereunder, as if such income was actually the income of the Agent, and in case of such Agent being a Company, as aforesaid, the provisions of section forty-six shall apply; provided that nothing herein contained shall exempt or discharge the principal from liability to pay income tax on such income: and that the agent shall have the same right to indemnity against the principal, in respect of the tax paid by him, as is conferred upon the representative taxpayer by section fifty-five.

(2) Every person shall, upon the publication of such notice, prepare and deliver in the prescribed manner within the period to be mentioned in such notice to the person appointed to receive the same, a return in the form prescribed of the particulars of his income and of all other details in relation thereto, which may be prescribed, and such return shall be signed by the taxpayer or by his agent duly authorized in that behalf.

Such assessment shall be subject to objection and the taxpayer if he has made default shall not be entitled to any costs on such objection.

Omissions.

68. If at any time it appears to the Commissioner that any taxpayer who ought to have been charged with tax has not been charged therewith, the Commissioner may make an assessment as to the income of such taxpayer in respect to which such omission has occurred, and the taxpayer shall be chargeable with a double rate of taxation thereon, if such omission has been occasioned by the taxpayer, but if the Commissioner be satisfied that the taxpayer was not guilty of any wilful neglect or omission, or had not done any act with intent to defraud the revenue, he may omit the whole or any part of such double duty over and above the amount computed on the ordinary rate.

If any trustee or executor neglect or refuse to pay as aforesaid, it shall be lawful to proceed against him in like manner as against any other person making default of payment of the said Act. ACT

To Authorise the Town Council of Bedford to acquire an improved water supply from the Maasstrom Estate and to release a portion of the said Maasstrom Estate from the entail of *Fidei Commissum*.

WHEREAS the inhabitants of the Municipality of Bedford have, by virtue of certain conditions of sale, dated the 18th and 19th days of January, 1854, and the 18th day of May, 1890, acquired from the Maasstrom Estate, the property of the estate of the late Sir Andries Stockenstrom, certain rights over the water rising on the estate property, subject to conditions 7 and 8 of the aforementioned Conditions of Sale, that is to say :— Preamble.

> Both the streams of water used on the estate for irrigation shall, by means of dams, and furrows as at present in use, or in such improved manner as the proprietors of the erven, or the future municipal or other authorities of the town acting on their behalf, shall hereafter deem fit, be led from the rivers to immediately above the mill on the said estate, where they must join,—thence over the mill-wheel, or when the mill is not working, by the mill spout, or in such course by the mill as the seller shall fix, to a spot marked by a beacon, at a distance of 380 yards below the mill; and from that spot the whole of the said water shall, during sixteen hours out of every twenty-four be led straightway to the town in one stream, that is, from four o'clock every morning to eight o'clock every evening;—and the present and future proprietors of the Estate Maasstrom shall at all times have the right to use the said water in its passage, wholly, or in part, for working the mill,—and shall further have the right to turn off the said water at the

before-mentioned spot below the mill, and to use it at pleasure during eight hours in the night time out of every twenty-four hours—that is, from eight o'clock every evening to four o'clock every morning. The dams and furrows, by which the water is to be led from the rivers to the town shall be made, kept in order, and fenced in by and at the expense of the proprietors of the erven, without any pecuniary or other assistance from the present or future proprietors of the said estate. The persons employed by the said proprietors of Erven, or by the future municipal or other authorities of the town, acting on their behalf, shall, for the purpose of repairing and keeping in order the said dams, water furrows and fences, have free access thereto from the town lands up to the dams in the rivers on the estate, at all times between sunrise and sunset; and the said dams and furrows shall be so fenced or otherwise protected as to prevent the stock of the present and future proprietors of said estate from injuring the same; but five thoroughfares of from 30 to 60 feet wide each, over the said furrows, shall be left at such spots as the seller shall point out, for the free passage of the said stock over and across the same. And the present and future proprietors of the said estate shall not be responsible for any accidental trespass upon, or injury which may be done to the said furrows by his or their stock; nor shall such stock be liable to be detained or impounded for any such trespass or injury.

All the inhabitants of the town shall, for culinary and other domestic purposes, have free access to the water so allotted to the town, along its course from where it enters the town downwards to the south-east extremity of the Town Common, without trespass on private property however, and subject to the future Town regulations. But only the erven marked Block A, No. 1 to 4 and 20 to 30; Block B, No. 1 to 31; Block C, No. 1 to 26; Block D, No. 1 to 24; Block E, No. 1 to 23; Block F, No. 1 to 22; Block G, No. 1 to 22, 22a, and 23; Block H, No. 1 to 20; Block J, No. 1 to 8, all inclusive, on the plan of the town framed by the surveyor, shall be entitled to the use of the said stream of water for irrigation, in fair and equal proportions, according to the extent of each:

And whereas, in consequence of the water-course conveying the said water to the town being entirely uncovered, a large quantity of water is lost by percolations and evaporation, and the water generally is subjected to all forms of pollution and contamination;

Digitised by the University of Pretoria, Library Services, 2013

And whereas the Town Council have caused surveys to be made, and are advised that an ample supply of pure water, sufficient for present and future uses of the town, can be obtained from the said two streams referred to in the said conditions of sale by means of a covered water course or pipe-track leading from a reservoir to be erected at the junction of the two streams above the said mill, without prejudicing the rights of the present or future proprietors of the said Maasstrom Estate:

And whereas it is expedient that the works necessary to accomplish the object should be constructed either by the said Council, or by a joint stock company, or co-partnership of individuals, or an individual with whom the said Council may contract, either for the whole or any portion of the said works, or supplying the material therefor:

And whereas the said Maasstrom Estate is entailed and burthened with a *Fidei Commissum* under the provisions, conditions and stipulations set forth and provided in the last Will and Testament of the said Sir ANDRIES STOCKENSTROM and Lady ELSABE HELENA STOCKENSTROM, executed before the Notary Public John Reid of Cape Town, on the 13th day of September, 1842, and the several Codicils attached thereto, filed in the office of the Master of the Supreme Court on the 19th day of July, 1864:

And whereas it is necessary that the entail upon the said estate should be removed in so far as it relates to such portion of the said Maasstrom Estate as shall be required to be expropriated by the said Council for the purpose of constructing the said reservoir and two or more filter beds below the said reservoir; and that the Council be authorised to make use of such stone, clay, gravel or other material on the said estate as may be required in the construction of such works; and that the extent of such land and the compensation to be paid to the said proprietor or future proprietors of the said Maasstrom Estate by the said Council therefor, and for the said stone, clay, gravel, and other material above referred to, be determined by arbitration:

And whereas it is necessary that the said Council be allowed to cause the water to be conveyed by means of a covered pipe-track from the said reservoir into the town in the most direct route without first passing over the mill-wheel, or mill-spout and along the furrows heretofore used, as is provided in the said conditions of sale above referred to; the mill not having been in use for the last twelve years, and being of no practical use or value as a mill to the said estate:

And whereas it is necessary, in order to procure funds for the purposes aforesaid, that the said Council shall be empowered to raise such sum or sums of money as they shall require therefor, not exceeding in the aggregate the sum of Thirteen Thousand Pounds; and that in order that the said

Council may be enabled to pay the interest on the said loan and provide for a sinking fund, the said Council should be empowered in each and every year to impose, levy and collect such a rate or assessment as will produce an amount sufficient to pay such interest and provide for such sinking fund as aforesaid:

From and after the taking effect of the Act it shall be lawful to transfer the whole or any defined or undefined part or share of and in the original erven in the village of Harmsfontein, now Carnarvon, to which the grazing rights on the Outer Commonage are attached without reference to the said grazing rights, anything in the original grant to the contrary notwithstanding: provided, however, that the said grazing rights shall remain undivided and indivisible.

Subject to regulations, if any, registered owner may retain grazing right.

3. In the event of the transfer of the whole of one of the erven in the village of Harmsfontein, now Carnarvon, to which grazing rights on Outer Commonage are attached, and the owner thereof desiring to retain the grazing right on the Outer Commonage, the said grazing right shall remain his property in the shape of an undivided and indivisible share in the Outer Commonage, subject to all such conditions and restrictions upon its use as may be imposed by any rules or regulations framed by the Committee of Management, or that may hereafter be imposed by such Committee, or by any other body legally authorised so to do, and the fact of such reservation shall be endorsed upon the deed of grant

Division of nurseries into local and general nurseries.

4. For the purposes of this Act, nurseries are divided into two classes, viz.:—local nurseries and general nurseries; and every nurseryman is privileged to elect under which class his nursery is placed. A classified list of nurseries shall be published by the 1st of May of each year in the *Gazette;* and except as it may be amended or superseded by subsequent publications, this classification shall hold good for one year from its date. Sections 7, 8, 9, and 11 hereof do not apply to local nurseries.

Transportation of stock from local nursery.

5. It shall be unlawful for any nurseryman or other person, without special authority from the Minister for Agriculture, or some person authorised by him to act on his behalf to transport or attempt to transport, by any railroad or any other public carrier any nursery stock not grown in a general nursery.

Inspection of nursery stock.

6. The nursery stock and all other plants growing in every nursery shall be inspected at least once a year between the 1st of September and the 1st of April by an inspector appointed for the purpose by the Minister for Agriculture. On the completion of the inspection of a nursery, the inspector shall make a report to the nurseryman stating what pests and other injurious insects and plant diseases, if any, he has observed, and what measures he recommends for the suppression and eradication of such. The nurseryman thereupon shall, if he has not done so already, elect whether his nursery shall be classed as a local or as a general nursery, and shall give his decision in writing to the inspector.

Quarantine.

7. It shall be the duty of the inspector to declare under quarantine such part of any general nursery as lies within eight (8) yards of any tree, shrub or plant which he finds infested with any pest, or within twelve (12) yards if such infested tree, shrub or plant is over ten (10) feet in height; and such area shall be deemed and held in quarantine accordingly.

Duration of quarantine.

8. A quarantine declared under the preceding section shall remain in force until the inspector shall at a subsequent regular inspection, or at an authorised examination, as provided for in section 9 hereof, find the trees, shrubs or plants within such quarantined area free from pests, and shall have given his written certificate to that effect to the nurseryman. During the period of the quarantine it shall be the duty of the nurseryman to see that no plants are removed from the quarantined area except for the purpose of treating or destroying the same on some part of the nursery premises approved in writing by the inspector; and any such nurseryman contravening any of the provisions of this section shall be liable to a fine not exceeding twenty-five pounds, to be recovered at the suit of the Government in any competent Court.

Inspections of nurseries during quarantine.

9. Any nurseryman may have quarantined parts of his nurseries examined by the inspector between the regular inspections, once free of charge and once or more later at his own expense, provided he certifies that a period of six weeks has elapsed since the last application of a remedial treatment. An examination under

Compensation.

11. In the event of the nurseryman not agreeing to the amount of compensation awarded under the foregoing section, the amount of such compensation shall be decided by a Board constituted by the Governor. As soon as the said Board shall have made its award, the destruction provided for in the foregoing section shall be carried into effect.

Regulations as regards imported stock.

12. The Governor by proclamation may make such regulations as may be deemed necessary to ensure that nursery stock for this Colony from other South African Colonies is free from plant pests proclaimed or not proclaimed under section two and also for the protection of clean areas within the Colony against the introduction of infected trees, plants, or fruit from any other area within the Colony.

Entry upon land.

13. It shall be lawful for any officer duly appointed thereto by the Minister to enter upon any land and to do thereon such acts, matters and things as are necessary and reasonably required for carrying out the provisions of this Act, and any person obstructing, resisting or interfering with any such officer in the lawful execution of his duty shall be deemed to be guilty of a contravention of this Act.

General regulations.

14. It shall be lawful for the Governor by proclamation to make, alter, or revoke such rules and regulations for the purpose of carrying out the provisions of this Act as may from time to time be deemed expedient, and to impose penalties for the contravention thereof not exceeding a fine of twenty-five pounds, to be recovered at the suit of the Government in any competent Court.

Inspection of Importations.

15. Present: The Mayor (Mr. H. Price) Messrs. J. Lamont, W. Price, W. B. Brown, C. Arnold, E. Arnold and P. Ella.

In addition to which the lower furrow water to be allowed to run down the river, and in the event of Government not agreeing to remove their Railway pump the Council to allow the water to run in the present furrow and re-divert same into the river lower down, the Council however to do their best to induce the Railway Department to discontinue pumping. The Council will also allow the lower riparian owners to widen or alter the course of furrows across the commonage to the south west of the Town should such be considered necessary.

The amount above referred to, to be paid as soon as the Council raises their loan, such time to be not more than 18 months from date hereof.

The lower riparian owners to withdraw their petition against the scheme as soon as agreement is signed.

In the event of Mr. Bradfield not agreeing to above arrangements, riparian owners present and Mr. Holliday will accept £7,000 (Seven Thousand Pounds) and will not interfere on Mr. Bradfield's position, leaving the Council to settle with him.

Should any unforeseen circumstances arise that causes the Bongolo Scheme to be abandoned, the whole of above arrangements to be null and void.

All the foregoing to be subject to the confirmation of the Council and Ratepayers.

1. (1) "Local authority" shall mean any Municipal Board or Council, or Village Management Board: Provided that it shall be lawful for the Governor—if petitioned so to do and if satisfied that the majority of ratepayers desire it—to exempt any area, or part thereof, of any local authority from the provisions of this Act.

(2) "Shop" shall include any place within a Municipality or Village Management Board area or within a radius of three miles therefrom set apart temporarily or permanently for the sale of movables by retail, and whether by auction or not, but shall not include chemists' shops, restaurants, cafés and eating houses (but in so far only as concerns the sale of medicines, surgical appliances, meals, tobacco and refreshments respectively), or hotels and bars where intoxicating liquors are sold for consumption on the premises; provided that to each employee there shall be assigned by his employer a half-holiday on at least one week-day in each week.

Assistants in exempted shops to have half-holiday.

(3) The expression "employee" shall not be deemed to include caretakers, domestic servants and persons employed for cleaning purposes or prevention of fire or those not employed indoors.

Every shopkeeper to elect a half-holiday.

2. Within one month from and after the passing of this Act every shop-keeper residing within the limits of any Municipality or Village Management Board area or within a radius of three miles therefrom, except those residing in the City of Cape Town, the Cape Division, Kimberley, Beaconsfield, Port Elizabeth, King William's Town and East London, shall elect a day on which his shop or shops shall be closed not later than half-past one o'clock in the afternoon for the remainder of such day; and every shop-

Notification of selection of day.

3. The local authority shall then at the expiration of one month after the passing of this Act notify which day of the week has been selected by the majority of shopkeepers who shall have voted and shall declare that day to be the one upon which all shops under its control shall be closed, provided that in Cape Town the shops may be closed on either of the two week-days, Thursday and Saturday, and every shop-keeper in Cape Town shall within one month from and after the passing of this Act elect one or other of those days as the day on which his shop or shops shall be closed not later than half-past one o'clock in the afternoon for the remainder of such day, and shall notify in writing to the local authority as hereinafter defined whether he will close on Thursday or on Saturday, and all shop-keepers who shall omit so to do shall have the day of Saturday assigned to them: Provided further that all the provisions of this section applicable to Cape Town shall also apply to the Cape Division, Kimberley, Beaconsfield, Port Elizabeth, King William's Town and East London, except that the days for all these places shall be Wednesday and Saturday.

Preamble. BE it enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council and House of Assembly thereof as follows :—

Interpretation Clause. 1. In the interpretation of this Act the following terms shall have the following meanings respectively, namely :—

"Grantee" or "Allottee" shall mean the original grantee or allottee of land within the Division of Stockenstrom, by virtue of certain grants or allotments made during and between the years 1836 and 1865 to certain Hottentots.

"Boedel Erf" shall mean an Erf granted or allotted as aforesaid, or any portion thereof, which at the present date remains registered in the name of the grantee or his successors in title, or is vested in the allottee or his heirs or assigns ; and of which the persons now claiming to be owners shall not have received transfer.

Repeal of repugnant laws. 2. So much of any law as is repugnant to or inconsistent with the provisions of this Act is hereby repealed.

Civil Commissioner of Stockenstrom *ex officio* executor in certain estates. 3. The Civil Commissioner for the time being of the Division of Stockenstrom is hereby appointed in his said capacity Executor and Administrator in the Estates of such grantees or allottees whose estates shall be certified by the Master of the Supreme Court not to be duly represented, or if represented, not to have been duly administered ; and for that purpose the Civil Commissioner shall, in addition to the powers conferred upon an Executor Dative by Law, have and exercise the powers conferred and be subject to the liabilities imposed by this Act.

Title to be granted to him in his said capacity. 4. In the event of a grant not having been issued for any boedel erf, a grant shall be issued to the Civil Commissioner in his said capacity.

Conditions under which transfer of Boedel Erven may be passed. 5. The said Civil Commissioner is hereby authorised to pass transfer of any boedel erf or portion thereof to persons entitled thereto without having to pass transfer to any intermediate owner, subject however to the following conditions, that is to say :—

(*a*) If the erf or share of the erf be in extent 300 square roods or more, and the result of the sub-division thereof amongst the persons entitled thereto, be to give to each person an extent of 300 square roods or more, then the erf or share of the erf as the case may be shall be transferred to such person or persons, and separate transfer shall be passed to each such person.

Digitised by the University of Pretoria, Library Services, 2013

(*b*) If the erf or share of the erf be less than 300 square roods, or if the result of the sub-division of the erf or share thereof be such as would give each person an extent of less than 300 square roods, then such erf or share of the erf as the case may be shall be held in trust by the said Civil Commissioner for such person or persons, subject to the provisions of section 6.

(*c*) The erf or portion thereof to be transferred shall be surveyed if necessary previous to transfer, and the cost of such survey and transfer together with transfer duty, stamp duty, succession duty, fees of office, and such fee as shall be prescribed by regulations, to be framed by the Governor, shall in the first instance be borne by the Government, and shall be repaid to the Civil Commissioner, in his capacity as Executor, by the person to whom transfer is made, in such instalments as may be provided by such regulations.

(*d*) If the Civil Commissioner shall be unable to discover the legal owner of any boedel erf or sub-division thereof he shall, by notice in the *Gazette* and in a newspaper published in the district, notify that within six months from the date of first publication of such notice applications will be received from persons claiming to be owners of the said erf or sub-division and such notice shall set forth that after the termination of the said period no applications will be acknowledged. The Civil Commissioner shall then decide as to the legality of any such claim, but any claimant aggrieved by such finding shall have the right of appeal to the Supreme Court, Eastern Districts Court or any Circuit Court holden for the Division of Stockenstrom, and the decision of such Court shall be final, provided such appeal is noted and prosecuted within six months after intimation in writing of his finding by the said Commissioner to the person or persons claiming a right as aforesaid to the said erf or portion thereof, failing which appeal the decision of the Commissioner shall be final.

(*e*) No transfer of any erf or portion thereof shall be effected under the provisions of this section until the Civil Commissioner shall have applied for and obtained from the Registrar of Deeds a Certificate containing the name of the last registered proprietor.

(*f*) In the event of the grant, by which an erf is held, or the transfer deed by which it was last conveyed, having been lost or destroyed, the Civil Commissioner shall give thirty days' clear notice in the *Gazette* and in a newspaper circulating in the Division of his intention to apply for a certified copy of such grant or deed of

There shall be paid for such copy the fees prescribed by law.

When transfer not to be passed.

6. No transfer shall hereafter be passed of any erf or portion thereof which shall be in extent less than 300 square roods. In case two or more persons are interested therein the Civil Commissioner shall take the necessary steps to apportion to each such person his undivided share in such manner as he may think fit, and no person holding such undivided share as aforesaid shall be entitled in any manner to dispose of the same, except to an owner of another undivided share in such erf or portion provided however that in the event of any such person acquiring any further share or interest in any such erf whereby his share shall be in extent at least 300 square roods he shall thereupon be entitled to receive transfer of such erf.

Payment of transfer duty.

7. In any transfer under the provisions of this Act the production of a receipt for the transfer duty, for which the person to whom transfer is to be effected is liable, shall be sufficient, notwithstanding the fact that duty may have become payable by some other person: Provided that the descendants of grantees or allottees shall be exempted from the payment of "additional duty" and interest.

Procedure upon failure to pay instalments.

8. If any person to whom transfer of any boedel erf or share of a boedel erf is effected under this Act shall fail to pay the instalment due under such regulations, or fails to apply in terms of section five, sub-section (*d*) hereof, the following procedure shall be adopted, that is to say:—

(*a*) If the default be made in respect of a portion of an erf in extent less than 300 square roods, it shall be dealt with in the following manner by a Committee, consisting of the Civil Commissioner, as Chairman, the Chairman of the Board of Management of the locality in which the erf or portion thereof in question is situated, and an erfholder in the said locality to be nominated by the Minister.

(*b*) The said Committee, after assessing the value of the said portion shall, in writing, notify each of the owners of the remaining portion or portions of the erf of which the portion in respect of which the default is made forms part, that the owner of the said portion has made default in paying the instalments aforesaid, or that the legal owner of the portion cannot be found, as the case may be, and further that the value of such portion has been assessed by them and that applications from the said owners of the remaining portions will be received by the Committee up to a date mentioned in such notice

for the purchase of the said portion at its assessed value, plus expenses of survey (if any) and transfer as above-mentioned.

(*c*) The Committee shall sell to the applicant who, in their opinion, is in the interest of the said owners of the remaining portions, the proper person to whom to sell.

(*d*) If no applications for such portion be received from any of the said owners of remaining portions, the said portion shall be allotted by the Committee at its assessed value amongst all the owners of remaining portions of the erf, who shall thereupon be bound to accept the ownership of the said portion, and pay the assessed value plus expenses of survey (if any), and of transfer.

(*e*) If the default be made in respect of an entire erf or of a portion of an erf 300 square roods or more in extent the Civil Commissioner shall cause the same to be dealt with in manner provided by sub-sections (*a*), (*b*), (*c*) of this section in respect of erven less than 300 square roods in extent, save and except that if no application is made he shall cause the same to be advertised for sale in the *Gazette* and a paper circulating in the district and sold by public auction on a day mentioned in such an advertisement, and the purchase price obtained at such sale shall be paid into the public revenue.

Commonage.

9. If in any location or village within the said Division, all the erven are owned by one person, or all the erven are held by more than one person jointly, and they agree to a sub-division, or if three-fourths of the erf-holders of any location agree to a sub-division, and the extent of commonage accruing to each sub-division will, in the opinion of the Minister, be of more value to the owner of the sub-division than if the whole commonage were enjoyed jointly by the joint owners of the erven, the commonage or portion thereof, in respect of the use of which the owners of the said erven are entitled, may be granted by the Governor to the said owners, and shall thereupon become and be the property of the said owners as if portion of the said erven, and they shall receive title-deed to the sub-divisions to which they are entitled upon payment of the expenses of survey and title: Provided that:

(*a*) In any agreement as to sub-division, where any person is the owner of two or more erven he shall be entitled to one vote for each erf to the extent of five votes and no more; in all cases the owner alone, and not the lessee, shall have a right to vote.

(*b*) The title deed of the said commonage shall provide that, in addition to the *bona fide* servants, no person to whom commonage has been conceded, shall have the right to locate on such commonage a greater number of aboriginal natives than one male and his family to every 300 morgen of such commonage.

Provisional order by Magistrate.

11. In every case as aforesaid in which the District Surgeon or medical man shall certify that in his opinion the personal injury received necessitates the workman's absence from work for longer than three days, and as soon as the Magistrate shall satisfy himself from the evidence taken in the said inquiry, that the injury was one in respect of which compensation is payable in terms of this Act, such Magistrate shall make a provisional order for the payment to the workman by the employer and the several principals (if any), the one paying the others to be discharged, from the date of the injury and until the workman is sufficiently recovered to resume work, of not exceeding fifty per centum of the wages which he was receiving at the time of the injury. Payment to be made at such times or at such intervals as may have been the course of payment to the workman at the time of the injury, provided that in no case shall the amount of such payment exceed two pounds per week. Regard shall be had, in fixing such amount, to the workman's necessities.

Effect of provisional order.

12. Any provisional order as aforesaid shall, unless and until it is set aside or varied in the manner hereinafter provided, and if varied then to the extent of the order made, have for a period of six months the full force and effect of a civil judgment of the Court of Resident Magistrate from the date of the injury, unless such workman shall sooner resume work, die, or obtain judgment in his favour in any action hereinafter provided, but no such order shall be suspended by the commencing of such action by the workman or the hearing thereof by the Court, and no such order shall be subject to appeal to any Superior Court having jurisdiction, unless a Magistrate shall have given a finding upon the question of gross carelessness, in which case an appeal to the Superior Court shall only lie upon leave granted by such Superior Court.

Application to set aside Provisional Order.

Digitised by the University of Pretoria, Library Services, 2013

(3) That the workman has sufficiently recovered to resume work.

(4) That the workman has refused to allow himself to be examined by a medical man appointed by the employer.

(5) That the workman is entitled wholly or in part to a similar allowance to that granted under the provisional order from a Benefit or other Society as mentioned in sections 29 and 30 of this Act; or that he would have been entitled to such allowance in whole or part had he joined the said Benefit or other Society as mentioned in section 31 of this Act.

Evidence.

15. At and upon the hearing of the application aforesaid it shall be lawful for the applicant, or for the workman or for the Court to produce or call such further evidence, or to recall such witnesses in the original inquiry as may be deemed necessary, and such evidence shall be recorded by the Magistrate with and in addition to the evidence of the original inquiry.

Examination by and evidence of District Surgeon.

16. In case in any such application as aforesaid the applicant shall rely upon the ground that the workman is sufficiently recovered to resume work the Magistrate may require the District Surgeon or medical man to visit and examine the workman and to give evidence thereon, the cost of such examination and witness to be borne by the unsuccessful party to the proceeding.

Final judgment.

17. Upon hearing the parties aforesaid the Magistrate may confirm or set aside the provisional order wholly or in part and for such period or from such date and upon such terms as to costs as to him may seem meet, and such judgment shall thereupon be deemed to be a final civil judgment of the Magistrate's Court, provided that no appeal shall lie therefrom to any Superior Court having jurisdiction except where gross carelessness has been alleged and the Magistrate's Court has given a finding thereon, in which case an appeal to the Superior Court shall only lie upon leave granted by such Superior Court.

Limit of Order.

18. No such judgment or provisional order as in the preceding sections mentioned shall be taken to extend beyond the period of the workman's actual incapacity for work, and any person adjudged to pay wages to an injured workman under any such judgment or order may at any time upon obtaining fresh evidence take further proceedings to terminate the operation of the said judgment or order, and the provisions of Sections 13, 14, 15, 16, and 17 of this Act shall apply *mutatis mutandis*, to such proceedings, provided that the Magistrate shall impose double costs in any case in which such Court is of opinion that the proceeding is frivolous and vexatious.

injury was due to his own gross carelessness, the workman may apply to a Superior Court having jurisdiction for leave to appeal from any such decision as if such decision were a final civil judgment of the Magistrate's Court.

Order by Superior Court.

20. In case the Superior Court hearing the appeal aforesaid shall be of opinion that the workman is entitled to a provisional order in terms of Section 11 of this Act the Court shall make such order, and the provisional order so made shall be deemed and taken to be the provisional order in Section 11 prescribed.

Procedure if injury prove more serious than supposed.

21. If the Magistrate shall have refused to make a provisional order on the ground that the medical man aforesaid was of opinion that the injury would not necessitate the workman's absence from work for longer than three days, and it shall happen thereafter that the injury was more serious than supposed, and has prevented the workman from resuming work for a period longer than three days, he may notify the Magistrate as in Clause 7, and the same proceedings shall be had thereon as if the workman had given notice of the injury for the first time, provided that, if the Magistrate shall find that the workman is not entitled to compensation under the provisions of this Act, the workman shall be liable to pay the whole cost of such second inquiry.

Partial unfitness for work.
